OVERVIEW OF ACTIVITIES
EXECUTIVE SUMMARY

The Board of Directors met four times during the fiscal year. The year began July 1, 2011, and ended June 30, 2012. Emphasis was placed on supporting marketing and promotional activities and conducting research to assist in the betterment and development of Nebraska’s grape and wine industry.

Board revenue originates from shipper license fees, crushed grape fees, and grape excise taxes. Revenue from these sources is remitted to the State Treasurer for credit to the Winery and Grape Producers’ Promotional Fund. The Board’s revenue for the 2011 – 2012 fiscal year totaled $179,692.78; the ending cash balanced equaled $91,838.33. As in previous years, the revenue over the past several years has enabled the Board to fund several meaningful projects aimed at enhancing the competitiveness of Nebraska’s grape and wine industry. Priority funding was given to marketing and research projects targeted at increasing the sales and production of Nebraska grapes and/or wines. A total of 18 projects were approved for funding, which totaled $210,274; $151,995.99 of this amount was submitted to the Nebraska Department of Agriculture (NDA) for reimbursement. For a complete list of all projects, and their respective amounts, please refer to the 2011 – 2012 fiscal report found in this report.

The Board’s part-time clerical assistant position was vacated in May 2011. In cooperation with NDA, the Board decided to change this position to that of a Board Services Contractor. In November 2011, the Board released an RFP, which provided an overview of the duties, qualifications, background information, scope of work, agreement terms, compensation, application submission instructions, and evaluation and selection criteria associated with this position. Four applicants applied, one of which was selected to fulfill this position on January 31, 2012. A copy of this position’s RFP is included in this report.

The Board released an RFP in April 2012 seeking grant proposals from individual growers, farm wineries, organizations, industry groups, or academic institutions that aimed to assist in the betterment of Nebraska’s grape and wine industry. A total of 14 proposals were received, 10 of which were approved for funding under the 2012 – 2013 fiscal year. A copy of the RFP is included in this report.

Promotion of Nebraska’s grape and wine industry continues to be a primary goal of the Board. The Board helps the grape and wine industry in becoming a strong and important part of Nebraska’s thriving economy. They stay abreast of recent legislation affecting Nebraska’s grape and wine industry, supports NWGGA activities, and works closely with UNL to receive guidance and education based upon industry research.

This annual report includes the Board’s strategic plan, meeting minutes, RFPs, 2011 – 2012 fiscal report, contracts, bylaws, statutes, and other documents pertaining to Board matters. Documents and information pertinent to the Board’s functions and history can also be found at http://www.grapeandwineryboard.nebraska.gov.
STRATEGIC PLAN
NEBRASKA GRAPE AND WINERY BOARD
STRATEGIC PLAN

INTRODUCTION

This Strategic Plan represents the vision and direction of the Nebraska Grape and Winery Board (NGWB). This is an adaptive, non-static document subject to change with new and/or additional input. It is not a standalone document. It is designed to work in conjunction with each year’s operational budget and funded projects. The Board believes that strategic planning is not a one-time effort. Once goals are set, commitment will be maintained, progress monitored, and adjustments made until the objectives are reached. This plan demonstrates the commitment which is needed to provide an excellent standard of programs and budget allocations designed to continuously meet the needs of the industry.

MISSION STATEMENT

The NGWB’s mission statement is to work collaboratively towards a profitable, sustainable future that advances the interests of Nebraska’s grape and wine industry through advocacy and education.

The purpose of the NGWB is to further the growth and economic development of the grape-growing and wine-making industry in the state of Nebraska to a maximum level as supported by the favorable soil and climatic conditions existing in Nebraska and to satisfy the market demand for grapes and wine inside and outside of Nebraska. The end objective is to create an economically viable alternative farm crop and wine industry in Nebraska that will enhance the economic condition of the farm industry and the state of Nebraska.

The duties and responsibilities of the NGWB include, but are not limited to, the following:

a. Establish a public forum whereby any producer of wine, grapes, or other wine-producing agricultural products has the opportunity, at least once annually, to discuss with the Board its policy and procedures;

b. Keep minutes of its meetings and other books and records which will clearly reflect all of the acts and transactions of the Board and to make these records available for examination upon request by members of the public;

c. Authorize and approve the Department of Agriculture’s (NDA) expenditure of funds collected pursuant to section 53-304;
d. Serve as an advisory panel to the Nebraska Liquor Control Commission in all matters pertaining to the wine industry; and

e. Adopt and promulgate rules and regulations to carry out sections 53-301 to 53-305.

**BOARD GOALS**

**Premium Quality Grapes and Wines.** Nebraska’s growing conditions vary greatly from the eastern to the western part of the state, and, to a lesser extent, from north to south. In the east, the elevation is less than 1,000 feet above sea level, annual precipitation may exceed 35 inches and winter lows normally do not exceed -15°F. In the western part of Nebraska, elevations exceed 5,200 feet, annual precipitation can be as low as 12 inches and winter lows may reach -30°F. Soil characteristics vary widely across Nebraska’s topography from sandy soils in the west to loess soils in the east.

Despite these climatic and soil extremes, vineyards across the state are producing premium quality grapes. The hardy grape varietals adaptive to Nebraska’s soils produce grapes that make great wines. This enables Nebraska the advantage to produce unique, handcrafted wines that are site-specific and will help capture compelling market attraction.

**Targeting Varietals in Which Nebraska Excels.** In business, success comes to those who build their reputations on unique products of consistent quality. In the same way, the great wine regions of the world are all associated with particular varieties of wine. Nebraska is no exception and is producing wines that are unlike many others in the world.

Carefully tending to its vineyards and refining its winemaking, the Nebraska wine industry is accomplishing this goal by identifying its strengths and placing its bets on the most popular and successful varieties. These include varieties such as, among the reds, Frontenac, Marechal Foch, and DeChaunac and, among the whites, Brianna, Edelweiss, Lacrosse, and Traminett. The sharing of results and experiences stemming from academic research studies, grape growers, and winemakers, the industry, as a whole, is developing a deeper understanding of the best grown practices and winemaking techniques. This will, in turn, continue the acceleration and demand of Nebraska high-quality wines. By trying new methods, tasting comparable products, and making adjustments, winemakers learn much faster and are able to create a better product than any single winery could do so alone.

**Enhancing the Quality of Nebraska Wines.** A concerted, focused effort on creating a sustainable grape and wine growing industry in Nebraska is of paramount importance. Quality research and enhancement is one avenue worth pursuing that will help achieve this goal. Measures implemented will be aimed at building a strong, vibrant industry that includes the production of world class wines made from world class grapes. Brand recognition is essential in any consumer business and is a key component within this
Strategic Plan. Nebraska wines would be graded against a rating system that is based on industry standards to identify the best wines in Nebraska. Exceptional wines would create awareness of the quality of Nebraska wines with consumers while promoting the best of the Nebraska wine industry. Enhancing the quality of Nebraska wines would spur investment in new vineyards with high quality wine grapes, encourage consumers to try Nebraska wines, and help consumers develop an appreciation for quality wines that are produced on Nebraska soil.

Plant Research. The University of Nebraska – Lincoln’s (UNL) Viticulture Program is an integral part of this industry’s success. They provide science-based research information that assists in the development of the Nebraska grape and wine industry in a sustainable and profitable manner, thus enhancing the economic viability of Nebraska communities and the state’s vibrant and burgeoning agricultural industry. Research studies address several topics pertaining to grape and wine production in Nebraska.

Education. Promoting the creation and discovery of new production practices will aid in this industry’s success. This goal can be achieved by funding various projects and activities through partnership with UNL’s Viticulture Program and the NWGGA. They include, but are not limited, to attendance at educational conferences, funding research projects, disseminating research findings to the public, supporting and partially funding grower field days and conferences, soliciting and funding proposals to enable industry partners to enhance programs and the industry, and serving as an active partner in the Grape and Wine Consortium, which works to develop and organize the annual Nebraska Winery and Grape Growers Forum and Tradeshow.

Encouraging Wine Tourism. Wine is identified with its origins and region. Wine tourism creates lasting memories, customer loyalty, and lifetime fans. These benefits aid in the rapid growth of this industry, making it easy for consumers to access and explore this industry from any of Nebraska’s major state highways.

Increasing the Marketability, Awareness and Accessibility of Nebraska Grapes and Wines. Nebraska wineries can encounter major challenges in terms of distribution and sales. A substantial amount of wine sales are made at the wineries, but there are a growing number of grocery stores and specialty shops that carry Nebraska wines. These stores serve as alternate sales outlets for many wineries, promoting the quality and value of the state’s wine.

The main strategic focus of grape and wine activities will be on enhancing the image of Nebraska wines through praise and acceptance. Developing brand recognition is essential in any consumer business and is also a key component within this Strategic Plan. The wine industry will continue its aggressive participation in key marketing and advertising campaigns. A strong presence domestically is key to becoming a larger global competitor.

Promotion of Nebraska’s grape and wine industry is a primary goal of the Board. The Board helps the grape and wine industry become a strong and important part of
Nebraska’s thriving economy. They stay abreast of recent legislation affecting Nebraska’s grape and wine industry, supports Nebraska Winery and Grape Growers’ Association (NWGGA) activities, and works closely with UNL to receive guidance and education based upon industry research.

Increasing the awareness and functionality of the Board is also a goal the Board hopes to achieve. Development of a NGWB web site has helped accomplish this goal. This enables the Board to establish an Internet presence, increase public awareness of Nebraska’s burgeoning grape and wine industry, describe the composition of the Board and its responsibilities, and strengthen Nebraska’s grape and wine industry by providing information relevant to the industry. It enables the Board to further the growth and economic development of the grape-growing and wine-making industry in the state of Nebraska to a maximum level as supported by the favorable soil and climatic conditions existing in Nebraska and to satisfy the market demand for grapes and wine inside and outside of Nebraska.

**Creating Partnerships Within the Industry.** Today, global success is won, not by firms acting alone, but by partnerships that promote joint planning, information sharing, open communication, and cooperation. A central challenge for the Nebraska wine industry is to continue cooperation and financial support to the NWGGA and UNL’s Viticulture Program, which have both been strong pillars of strength for Nebraska’s grape and wine industry. These partnerships entail balancing individual mandates with the opportunities for promotion and research.

Wineries and growers work together to ensure there are reliable supplies of premium grapes of the right varieties. The involves joint decision-making regarding planting and vineyard management as well as multi-year contracts, the sharing of risks, rewards, and access to capital. Distribution of quality wines is an important challenge and one that needs to be embraced, collectively, by all wineries and growers. This includes finding greater opportunities in marketing and research that will benefit both wineries and growers, big and small.

**Maintaining Financial Viability and Revenue of the Grape and Winery Board.** Crushed juice fees, grape excise taxes, and shipper license fees are the three primary sources from which the Board obtains its revenue.

Each Nebraska winery pays the Nebraska Liquor Control Commission twenty dollars for every one hundred sixty gallons of juice produced or received by its facility. Gifts, grants, or bequests may be received for the support of the Nebraska Grape and Winery Board. Funds paid pursuant to the charge imposed by section 53-304 and funds received pursuant to subsection (4) of section 53-123.15 and from gifts, grants, or bequests is remitted to the State Treasurer for credit to the Winery and Grape Producers’ Promotional Fund. For administrative purposes, the fund is located in NDA. All revenue credited to the fund pursuant to the charge imposed by this section and excise taxes collected pursuant to section 2-5603 and any funds received as gifts, grants, or bequests and credited to the fund is used by NDA, at the direction of and in
cooperation with the Board, to develop and maintain programs for the research and advancement of the growing, selling, marketing, and promotion of grapes, fruits, berries, honey, and other agricultural products and their byproducts grown and produced in Nebraska for use in the wine industry. Such expenditures may include, but are not limited to, all necessary funding for the employment of experts in the fields of viticulture and enology, as deemed necessary by the Board, and programs aimed at improving the promotion of all varieties of wines, grapes, fruits, berries, honey, and other agricultural products and their byproducts grown and produced in Nebraska for use in the wine industry.

Funds credited to the fund shall be used for no other purposes than those stated in this section and any transfers authorized pursuant to section 2-5604. Any funds not expended during a fiscal year may be maintained in the fund for distribution or expenditure during subsequent fiscal years. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Legislation approved on May 30, 2007, amended sections 53-123.15 and 53-304 of the Nebraska Revised Statutes and repealed the original sections. The act, relating to alcoholic liquor, changed the provisions relating to shippers’ license fees and provided an excise tax on grapes. Within the act, terms were defined, powers and duties were assigned, and a penalty was enacted. Until April 30, 2012, shipping license fees were to be collected by the Nebraska Liquor Control Commission and remitted to the State Treasurer for credit to the Winery and Grape Producers’ Promotional Fund. However, legislation approved on May 18, 2011, amended section 53-123.15, which removed the April 30, 2012, sunset date. Additionally, an excise tax of one cent per pound is levied upon all grapes sold through commercial channels in Nebraska or delivered in Nebraska. Excise taxes are also remitted to the State Treasurer for credit to the Winery and Grape Producers’ Promotional Fund. The license fees and excise taxes resulted in a substantial increase in Board revenue.

The Board believes it is imperative to fund any additional projects that would be feasible to help further promote and expand Nebraska’s burgeoning grape and wine industry. The Board sends out news releases seeking grant proposals from individual growers, farm wineries, organizations, industry groups or academic institutions that aim to assist in the betterment of Nebraska’s grape and wine industry. Interested parties wishing to receive funds are required to submit detailed proposals to the Board. The proposals are to clearly explain how the money is to be used and how it would enhance the competitiveness of the state’s grape and wine industry. The Board has developed a grant proposal process in order to provide all interested parties with an opportunity to access these funds. Grant proposal guidelines and application information is made available to the public and is available on UNL’s Viticulture Program web site. Information can also be obtained by contacting NDA or the Board Chair. Distribution of the Request for Proposal (RFP) solicits several proposals. Priority funding is given to marketing and research projects targeted at increasing the sale and production of Nebraska grapes and/or wines. Collecting and compiling final reports in a timely manner
from Board-funded projects, and evaluating the efficacy of the reports as to how they relate to the Strategic Plan is of paramount importance to the Board.

The responsibilities of the Board have increased largely due in part to the number of projects funded each year. In an effort to enhance the accountability and reporting requirements of Board-funded projects, the Board allocates money to pay the salary of a part-time clerical assistant to assist with Board duties. The Board asks NDA find an individual to fill this position each year. This individual is under the direction of the NDA.

Each year, the Board publishes an annual report, which is available to the public, free of charge. The report primarily includes meeting minutes, news releases, RFP application instructions, annual fiscal report, contracts, bylaws, and statutes.

Introduction

The Nebraska Grape and Winery Board was created to (a) establish a public forum whereby any producer of wine, grapes, or other wine-producing agricultural products has the opportunity, at least once annually, to discuss with the Board its policy and procedures; (b) keep minutes of its meetings and other books and records which clearly reflect all of the acts and transactions of the Board and to make these records available for examination upon request by members of the public; (c) authorize and approve the Department of Agriculture’s expenditure of funds collected pursuant to §53-304; (d) serve as an advisory panel to the Nebraska Liquor Control Commission in all matters pertaining to the wine industry; and (e) adopt and promulgate rules and regulations to carry out §§53-30 to 53-305 of the Nebraska Grape and Winery Board Statute.

The Nebraska Grape and Winery Board’s revenue originates from a variety of different sources, which primarily include shipper license fees, grape excise taxes, and crushed grape fees. The Nebraska Grape and Winery Board has the power to utilize their revenue to fund projects that are designed to improve and promote Nebraska’s grape and wine industry. The Board is seeking to fund proposals that will aid in the betterment of Nebraska’s grape and wine industry.

Interested parties wishing to receive funds must submit a detailed proposal for review and approval by the Nebraska Grape and Winery Board. Proposals must clearly explain how the money will be used, and how it will enhance the competitiveness of Nebraska’s grape and wine industry. This RFP is for the next fiscal year, July 1, 2012, to June 30, 2013. All projects approved must be completed by the end of the next fiscal year.

The Board has developed this grant proposal process in order to provide all interested parties an opportunity to access these funds. The Board’s goal is to fund meaningful projects that will have the highest likelihood of significant, positive impact on the grape and wine production in Nebraska.

Funding Cap

The maximum grant award will be $50,000. The Board reserves the right to consider larger requests for projects with exceptional merit.

Grant Eligibility

Proposals should be initiated by individual growers, farm wineries, organizations, industry groups or academic institutions, or should involve collaboration or partnerships between producers, industry groups, academics, or other organizations. **Projects must benefit the entire grape and/or wine industry and not a particular business venture.** Applicants may cooperate with any public or private organization involving agricultural development, research, and/or marketing to enhance Nebraska’s grape and wine industry. If two or more individuals or organizations propose a joint project, they
may submit one application as co-applicants. Applicants proposing joint projects are not required to form a legal entity but must show in their application how the project potentially impacts and produces measurable outcomes for the grape and wine industry and/or the public. **Any and all outcomes and records, resulting from a funded project, must be available for examination upon request by members of the public.** Two five-year project proposals will be considered, subject to annual review and re-authorization.

Examples of enhancing the competitiveness of Nebraska’s grapes and wines include, but are not limited to: research, promotion, marketing, nutrition, trade enhancement, food safety, food security, education, “buy local” programs, increased consumption, increased innovation, environmental and conservation concerns, improved efficiency and reduced costs of distribution systems, product development, and developing cooperatives.

**Program Policies**

The Nebraska Grape and Winery Board reserves the right to:

- Reject any or all proposals received;
- Request additional information on project proposals;
- Recommend partial funding for a proposal that may be less than the full amount requested in the grant application;
- Tie the release of project funds to completion of necessary, timely progress reports.

**Funding Allocation**

Projects funded during this next fiscal year will be valid upon the respective party’s signature to an agreement with the Nebraska Department of Agriculture and the party incurring an obligation of funds for the project on or after July 1, 2012, and prior to June 30, 2013. Invoices shall be presented to the Department of Agriculture from which payment shall be made. A final report of the project will be provided to the Board and the Department of Agriculture. There will be no funding match requirement of applicants, although priority will be given to those projects that show in-kind and additional cash commitment to supplement the funding request. **Please note that funding for projects are subject to legislative appropriations and funding being available.**

**Proposals will NOT fund the following expenses:**

- Paying off existing debt;
- Purchase of equipment, land, or buildings;
- Business entertainment or business gifts; and
- Lobbying or political efforts
Grant Proposal Review and Selection

Grant applications will be reviewed and decided upon by the Nebraska Grape and Winery Board with input from relative entities. The Nebraska Grape and Winery Board will make the final decision.

Questions and Scoring Criteria

There will be 100 points possible, which is outlined below.

Application Instructions

All applications should include the information listed on pages 4 through 6.

A. Cover Page

1. Name of applicant whose name should be used on all correspondence. Include contact information (address, phone, e-mail, and, if available, fax) for one individual. This person should also be the one who will appear on a grant agreement and who will be responsible for tracking and accounting for project funds and ensuring the completion of the project.

2. Abstract of 200 words or less for the proposed project.

3. Listing of all other individuals, entities, organizations, or businesses involved with the project.

B. Project Purpose (5 points)

In one or two paragraphs, clearly state the specific issue, problem, interest, or need to be addressed. Explain why your project is important and timely. Indicate the amount of time needed to complete the project. The project must benefit the entire grape and/or wine industry and not a particular business venture.

C. Potential Impact (10 points)

In one page or less, discuss the number of people or operations affected, the intended beneficiaries of the project, and/or potential economic impact, if data from the project are available.

D. Goals (5 points)

Describe the overall goal(s) of the project in one or two sentences.
E. **Work Plan (45 points)**

On three pages or less, describe your proposal and its expected benefit to the Nebraska grape and wine industry. Explain how each goal and measurable outcome will be accomplished. The measurable outcomes must list the elements that will be monitored or evaluated, by whom, how often and for how long. Expected measurable outcomes may be long term and exceed the grant period. If so, provide a time frame when long-term outcome measures will be achieved.

The major considerations here are:

- *Does the project benefit the entire grape and/or wine industry and not a particular business venture?*
- *Can project benefits be measured, reported, and tracked over time?*
- *Does the project provide an overall economic benefit to Nebraska’s grape and wine industry?*
- *Does the project make good business sense, and does it have a high likelihood of success?*
- *Are the expected benefits of the proposal commensurate with total investment?*

F. **Project Commitment (10 points)**

On one page or less, describe the partnerships, alliances, networks, or other collaborative efforts that will be created to implement this project. List all parties involved and describe what each contributes in skills and abilities to make this proposal succeed and work toward the goals and outcomes, as well as the commitments for each party (in-kind, monetary, labor, etc.).

Major consideration will be given to whether:

- *The project involves collaboration and enables the grape and wine industry to achieve collective results that benefits the entire industry, not a particular business venture;*
- *The applicant demonstrates commitment by way of in-kind time, resources, or other means.*
G. **Financial Feasibility (25 points)**

This question requires a one page or less narrative and a one page or less standard budget outline. How do you intend to use the grant funds? Provide a breakdown of the components of the proposal and where the grant funds fit into the overall project financing. Prioritize funding needs, if possible. Provide budget estimates for the total project cost. List the source and amount of funds to use for the project. This information will provide assurance that you will have sufficient resources to meet project goals. Page 6 provides a budget example from which to refer to and use when creating your budget.

Major consideration will be given to whether:

- *The project makes good business sense according to the proposed expenses and activities noted in the budget;*
- *The budget supports the anticipated benefits and whether the benefits are commensurate with the total project financing;*
- *The project coordinating entity has a process in place to track and account for grant fund expenditures; can accounting and project records be readily retrieved and reported?*
- *Budget line item expenses could include costs associated with personnel, travel, equipment, supplies, and/or contracted work.*

The Contractor represents and warrants that he/she has the requisite training, skills, and experience necessary to perform the work.

Background Information
The Nebraska Grape and Winery Board was created to (a) establish a public forum whereby any producer of wine, grapes, or other wine-producing agricultural products has the opportunity, at least once, annually, to discuss with the Board its policy and procedures; (b) keep minutes of its meetings and other books and records which clearly reflect all of the acts and transactions of the Board and to make these records available for examination upon request by members of the public; (c) authorize and approve the
Department of Agriculture’s expenditure of funds collected pursuant to §53-304; (d) serve as an advisory panel to the Nebraska Liquor Control Commission in all matters pertaining to the wine industry; and (e) adopt and promulgate rules and regulations to carry out §§53-30 to 53-305 of the Nebraska Grape and Winery Board Statute.

NDA serves as one of the ex officio members of the Board. For administrative purposes, Board funds are located in the Department of Agriculture and defined as the Winery and Grape Producers’ Promotional Fund. All revenue credited to this fund is used by NDA at the direction of and in cooperation with the Board to develop and maintain programs for the research and advancement of the growing, selling, marketing, and promotion of grapes, fruits, berries, honey and other agricultural products and their byproducts grown and produced in Nebraska for use in the wine industry.

Old Business

Wine Quality Assurance Update

Max provided the Board with an update regarding Nebraska's Wine Quality Assurance Program. This project is entering its second phase, which is designed to provide appropriate educational opportunities, workshops, and resources to assist wineries in
addressing problems that are resulting in wine flaws. The Board has allocated up to $6,000 from the Winery and Grape Producers’ Promotional Fund to pay for this phase of the project, which is administered by the consultant and developed in consultation with NWGGA member wineries. To date, 12 wineries have decided to participate in this program, and each one has an opportunity to send in eight wines for evaluation. The consultant, Stephen Menke, is currently assembling the evaluation team that will score the Nebraska wines. The results, or commonalities, of the wine grape varieties studied will not be exclusive to only the participating wineries. Instead, they will be made available to the public. The intent is to correct any flaws associated with each variety so that the quality of Nebraska wines can be improved.

Nebraska Winery and Grape Growers’ Association (NWGGA) Project Updates
Seth McFarland, NWGGA President-Elect, gave an update of NWGGA projects.

Last fiscal year, the Board approved funding for the NWGGA’s popular Passport Program. Consumers who tour participating wineries and tasting rooms receive a “stamp” at each location they visit. After a certain number of stamps have been received, Passports can be sent to the NWGGA in return for gift cards or “Winery Bucks,” which can be used for the purchase of wine from any Passport participating establishment. From January – June 2011, a total of $7,310 in Winery Bucks was paid to participating Passport consumers. NWGGA was planning to receive reimbursement from the Board for these costs. However, it was decided at the November 20, 2010, meeting that funds tied to this program were only to be used to pay for 2010 expenses. Therefore, any invoices dated past December 31, 2011, resulted in nonpayment. The motion was made by Terry and seconded by Bart that NWGGA be reimbursed for the $7,310 Winery Bucks expenses incurred from January – June 2011. Reimbursement funds in the amount of $2,886.24 were paid to the NWGGA during the 2010-11 fiscal year for Passport Program expenses incurred from July – December 2010.

It was also noted that prizes were given to three participants who won the Passport Program drawing. The prizes included a case of wine, a $50 gift basket, and an evening stay at a Bed and Breakfast.

The Board allocated money to the NWGGA to fund NWGGA’s Executive Director (ED) position and to pay for marketing expenses incurred during the 2010 – 11 fiscal year. The ED was paid $37,800 for the services rendered from July – May 2011. Some of the marketing activity expenses included an NWGGA winery brochure, promotion of the Wine and Jazz Festival, Kearney Area Community Foundation Marketing Booth, and HMC conference room rental.

As stated at the last meeting, the Nutrition Education project is complete. The Board allocated $2,745 towards this project, which was used to conduct seminars that monitored grapevine nutrition to help Nebraska grape growers determine the nutrient needs of established vine plantings.

NWGGA’s 2008 USDA Specialty Crop Block Grant Program is complete. The project consisted of educational seminars that addressed the topics covered in the
VINEBALANCE Grower Self-Assessment Workbook. The seminars, or grower field days, provided guidance in evaluating and adopting best management practices that can minimize environmental impacts, reduce economic risks, and protect worker health and safety.

Last fiscal year, the Board approved up to $4,500 to the NWGGA to pay for registration costs associated with a two-credit on-line viticulture or enology course conducted through the Des Moines Area Community College (DMACC). The funds were not used due to lack of NWGGA participation. However, NWGGA interest has peaked and the Board has again allocated to the same amount of funds for this purpose. It was reported that the enology classes should be available in the fall of 2011.

Last fiscal year, the NWGGA received $5,000 from the Board to enhance the functionality of their web site. The primary enhancements included accepting credit card payments via the web site for event and membership fees, the inclusion of electronic newsletters, and additional membership and event management modifications. It is believed that the enhancements have been made and will be unveiled to the NWGGA soon.

Max provided the Board with an update regarding the redevelopment of the NWGGA Strategic Plan. This project is a three step process, which began by surveying the NWGGA Board to determine their goals of this plan. The second step involved conducting three Membership Strategic Planning Input Sessions, which were held in Western, Central, and Eastern Nebraska. A total of 21 members attended the listening sessions, and a summary of the ideas were reported back to the NWGGA Board. Finally, the NWGGA Board held a work session, drafted a plan, and conducted a follow-up meeting. Finalizing, printing, and binding of the NWGGA Strategic Plan should take place soon. Copies of the Strategic Plan are expected to be available around September 1, 2011.

Seth reported that the feasibility study of a Nebraska Wine Expo/Festival is moving forward. NWGGA is looking for help to put packages together to present to the NWGGA Board. He also mentioned that Mick McDowell has stepped down as NWGGA’s Marketing Chairman. Andre Mick of Hayes Management is serving in this capacity during the interim until this position is filled.

UNL Viticulture Program Project Updates

No report.

Booth Display Update
The Board approved up to $2,000 from the Winery and Grape Producers’ Promotional Fund to pay for the creation of a Board display banner. The purpose of the display is to assist in the promotion of Nebraska’s emerging grape and wine industry. Max set up two wine trail displays to provide the Board with an idea of what some of them look like. Each one was made for approximately $200.
Bart presented nine different electronic banner designs for the Board to consider. The designs were made by Imagine Studios. Although each banner had a different image, each one included the Board’s mission statement and web site address. It was by unanimous consensus that two eight foot displays will be needed. The Board decided which two designs they liked most. One display should include the Board’s mission statement; the other should list the Board’s goals as stated in their Strategic Plan. Minor alterations will be made to reflect these changes. Bart mentioned that the total cost for both displays (including the artwork) is estimated to cost approximately $1,000.

Prior to the meeting, bids were received from four different marketing firms. Imagine Studios was added to the subcontractor bid list. Each subcontractor was competitively ranked and scored. The criteria and respective points from which the subcontractors were scored were based upon three criteria:

a. Background and ability to create the display in a timely manner (25 points);

b. Proposed approach from which to perform and carryout the work (25 points); and

c. Total cost (50 points).

Imagine Studios was the only subcontractor who received score points. They received the total amount of points for each category. Consequently, Terry made a motion, which was seconded by Ellen, that Imagine Studios be the company hired to create the two displays. This company would have the freedom to decide which printing company to work with to print the display banners. The motion passed unanimously.

Grape Grower Survey Update
Dave gave an update regarding the Board’s Grape Grower Survey. A list of 111 vineyards representing 321.64 acres has been compiled. Fifteen of the vineyards reported zero vines. Dave will be calling a few that have failed to respond with the hopes of obtaining their data. There was a request, by email, suggesting that direct mailings be sent to the vineyards with a self-addressed stamped envelope. Although surveys are still trickling in, August 10, 2011, is the date slated to have the survey finished. Casey said USDA’s NASS Nebraska Field Office contacted him asking for an updated grape grower listing. Dave agreed to send them the grower listing. Max also said the NWGGA would like to have this information as part of their Strategic Plan. When completed, this information will be posted on the Nebraska Grape and Winery Board’s website.

Fee Collection Form Update
At the last meeting, the Board asked if the Nebraska Department of Agriculture (NDA) could add survey information to the fee collection forms to more easily retrieve this kind of data in the future. Casey said that while the fee collection form would not be altered, a survey form, developed by the Board, could be included in the fee collection
envelopes when the forms are sent out. After some debate, it was decided that surveys not be included when the fee collection forms are sent to the first purchasers.

**Other**

Ellen mentioned that the Nebraska Grape Excise Tax Statute states that one cent per pound is levied upon all grapes sold through commercial channels in Nebraska or delivered in Nebraska. Taxes are not levied on any other products that are used to make wine, which includes products such as fruits and honey. Ellen asked if this law should be changed to tax these additional items. After some discussion, Max said he will bring this to the attention of the NWGGA Legislative Committee and let them decide what course of action to take with regards to this issue.

**New Business**

**2010 – 2011 Year End Fiscal Report**

Casey handed out the 2010-11 year end financial report. Total revenue earned amounted to $166,019.37. A total of $133,858.50 was spent primarily on projects aimed at increasing and furthering the growth and economic development of the grape-growing and wine-making industry in the state of Nebraska. The Board’s ending cash balance amounted to $71,296.78, which was carried over to the 2011-12 fiscal year. Bart made a motion to approve the June 2011 financial report as presented. Terry seconded it. The motion passed unanimously. It was mentioned that the NWGGA is looking at matching their year end dates with that of the State of Nebraska’s.

**2011-2012 Fiscal Year Report**

The 2011-12 budget, approved at the last meeting, was handed out. With the large carryover, it appears as though $50,000 is still be available for disbursement.

**Discuss Proposal(s) and Allocation of Funding**

Although no proposals were submitted for funding consideration, the Board would like to partner with the Nebraska Department of Economic Development’s Travel and Tourism Division. With their support and cooperation, the Board would like to combine their financial resources to increase the advertisement of the Nebraska grape and wine industry. Max is working on setting up a meeting with the Director of the Travel and Tourism Division to discuss this issue in greater detail. After the meeting, Max will decide if it is necessary for the Board to convene again, before their next meeting, to vote on any ideas discussed.

**Board Staff Assistant Position**

Casey provided an update on the Board Staff Assistant Position. The job was posted on the *Husker Hire Link* web site and four individuals applied for the position. After reviewing the resumes and conducting a couple of interviews, NDA decided that the top candidates were not a good fit for the position. Casey said he has an intern who manages the Centennial Mall Garden Market in Lincoln. She has done an outstanding job. He said he will offer this position to her at the end of the summer. If she declines, the search for another qualified individual to fill this vacated position will continue.
Other Business

After the Board members completed their expense vouchers, it was decided that the next meeting be held around the time of UNL’s Fall Workshop. An exact time, date, and location will be decided in the fall.

Adjourn

Bart made motion to adjourn and Terry seconded it. Motion passed unanimously. The meeting adjourned at 8:05 p.m.

Nebraska Winery and Grape Growers’ Association (NWGGA) Project Updates

Wine Quality Assurance Update. Max provided the Board with an update regarding Nebraska’s Wine Quality Assurance Program. The Board allocated up to $12,000 from the Winery and Grape Producers' Promotional Fund to initiate the development of a statewide Wine Quality Assurance Program administered by the consultant, Stephen Menke, and developed in consultation with NWGGA member wineries. The first phase is complete and the composite of the wines evaluated is being tabulated. The initial results were excellent. Below is a summary of the activities completed.

Stephen Menke assembled a Wine Sensory Quality Assurance Panel, which was an evaluation team that consisted of eight judges who scored the Nebraska wines. Twelve wineries participated and each was able to submit up to eight wines for evaluation. Wines were evaluated in a neutral laboratory set up at the University of Nebraska – Lincoln’s East Campus. They were evaluated by four trained panelists from a Hedonistic Panel (smell and taste) and four from a Quantitative Faults Panel (smell only). The scoring gave combined baseline scores of 22.4 out of 32 possible points, which indicated a sound commercial quality wine. The composite is currently being tabulated and the Board expects the results to be released in March 2012. The results, or commonalities, of the wine grape varieties studied will not be exclusive to only the participating wineries. Instead, they will be made available to the public through either the NWGGA and/or the Nebraska Grape and Winery Board’s web site(s). The intent is to correct any flaws associated with each variety, so the quality of Nebraska wines can be improved.

The second phase of the project is underway. The NWGGA Wine Council will review the composite from phase one and will talk with individual wineries regarding their results. The participating wineries will receive a follow-up to their wine quality analyses. This will involve appropriate educational opportunities, workshops, and resources to assist them in addressing problems that are resulting in wine flaws. It is anticipated that they can use this information to make adjustments or corrections to their own productions, if necessary.

Seth McFarland, NWGGA President-Elect, gave an update of the following NWGGA projects:

Executive Director. The Board allocated $36,000 to the NWGGA to fund their Executive Director (ED) position. The ED, Jason Hayes, is handling Passport Program reimbursements, membership connections, quarterly newsletters, grants, legal issues, and corporate matters. André Mick is handling event coordination, constituent contacts, Passport design, and trade show registration. The NWGGA requested $12,000 from the Board to cover the “Winery Bucks” expenses directly associated with the 2011 Passport Program.
**Wine Advertising Campaign.** The Board allocated $6,100 to pay for a Stepped Up Premium Wine Advertising Campaign. The purpose of the project is to conduct a campaign to promote the quality and desirability of Nebraska wine products to consumers in Nebraska and across the country. The project is separated into three parts, but the Board only approved the first two, which are described below.

a. **Advertising Campaign Study/Consultation.**

NWGGA will utilize up to two thousand five hundred dollars ($2,500) to hire IDEA Bank in Hastings, Nebraska, to prepare a marketing plan for the Nebraska wine industry. From this plan, an effort toward enhancing the image of the Nebraska wine industry will be formulated and implemented.

b. **Contract with IDEA Bank for six (6) news releases.**

NWGGA will utilize up to three thousand six hundred dollars ($3,600) to create news releases touting the success of NWGGA’s promotional programs. Topic examples used in the news releases might include the Passport Program, increasing the awareness of the use of wines for holiday cooking, and purchasing Nebraska wines as Christmas gifts.

There are some reoccurring concerns of interest pertaining to the Nebraska wine industry. They are as follows:

1. Increasing Nebraska wines share of the total wine market in our state;
2. Maintaining a profitable price point for Nebraska wineries; and
3. Promoting a Quality Assurance Program among members.

The NWGGA Board will be meeting in January 2012 to review recommendations submitted by the NWGGA Marketing Committee for use of these funds. At that time, the NWGGA Board will give approval to the Marketing Committee’s proposal. The NWGGA will update the Board following that meeting.

**Wine Expo/Festival.** The Board allocated $12,000 to NWGGA to investigate and determine the feasibility and requirements for developing a Nebraska Wine Expo/Festival.

Grant funds will be used to pay for the following activities:

a. **Hire a consultant to give the Expo Committee an overview of what is needed to host a festival;**

b. **The Expo Committee members will travel to one (1) to two (2) successful festivals in the country to get a feel for the atmosphere, obtain ideas, and visit with the festival directors to gain additional insight; and**
c. Develop a plan for a Nebraska Wine Expo/Festival. Meet with wineries and NWGGA members to discuss and gain feedback.

A Nebraska Wine Expo/Festival will provide much needed exposure to the industry and can provide a stable source of income for the association to utilize. The initial vision for this activity is that it would develop into a weekend event that would contain a number of activities pertaining to the industry. Examples might include a tasting event featuring Nebraska wines and wine seminars tailored to the public (wine and food pairing, wine 101) and NWGGA members (in-depth learning session featuring pertinent speakers from across the country). The location, time of year, and other elements would be determined by this study. Seth McFarland was appointed by the NWGGA Board to oversee locating an evaluator to provide a feasibility study of the NWGGA hosting such an event. Once an evaluator has been decided upon, the feasibility study will begin.

**Winery Council Workshop.** The Board allocated $5,000 to NWGGA to conduct workshop(s) for Nebraska farm wineries. Below are the topics to be covered at the workshop(s):

a. The Federal Tax and Trade Bureau’s (TTB) compliance/audit issues;

b. Current OSHA compliance issues/policies/procedures as they pertain to Nebraska farm wineries;

c. Prevention of wine faults and filtration techniques.

Federal regulatory and compliance policies/procedures/issues continue to be an extremely difficult area for most farm wineries. Over time, these policies and issues continually change and, without the most recent information, wineries may inadvertently fall out of alignment. Upon the recommendation of TTB personnel, such comprehensive training should be conducted every two years. This information will be addressed during the workshop(s).

Secondly, Scott Laboratories will present a seminar on the prevention of wine faults from yeasts, bacteria, nutritional imbalance, and sanitation. They will also discuss filtration techniques. This information is to be applied to Nebraska wineries to identify problems in their wine making practices and to help improve the quality of their wines.

Funds are only to be used to pay for speaker honorariums, speaker expenses, meeting room cost(s), and workshop materials.

The NWGGA Board will be meeting in January to review recommendations submitted by the NWGGA Winery Council for use of these funds. At that time, the NWGGA Board will give approval to the Winery Council’s proposal.
**Strategic Plan Facilitation and Creation.** The Board allocated $5,000 to the NWGGA to redevelop their Strategic Plan. This was a three-step process, which began by surveying the NWGGA Board to determine their goals of this Plan. The second step involved conducting three Membership Strategic Planning Input Sessions, which were held in Western (Ogallala), Central (Grand Island), and Eastern (Lincoln) Nebraska. A total of 21 members attended the listening sessions, and a summary of the ideas were reported back to the NWGGA Board. On July 24, 2011, the NWGGA Board met in York and drafted a plan. Finalizing, printing, and binding of the NWGGA Strategic Plan is complete. Copies of the Strategic Plan are available for review by all interested parties.

**Grape Grower Educational Seminars.** The Board approved up to $5,000 from the Winery and Grape Producers’ Promotional Fund to NWGGA to conduct grape grower educational seminars. The purpose of this project is to provide the latest best management practices and technological innovations to grape growers across the state. Seminars will focus on areas of interest for winery establishments and grape growers. The seminars to be held are as follows:

- **a. Canopy Management and Crop Sustainability Issue Seminar.** Attendees will learn about canopy management and how it is determined by the interaction of the cultivar, vineyard site, seasonal climate, inputs, and trellis systems.

- **b. VINEBALANCE Program Seminars.** Two educational seminars will be held covering the appropriate chapters from the VINEBALANCE self-assessment workbook.

Funds are only to be used to pay for speaker honorariums, speaker expenses, meeting room costs, and seminar materials.

The NWGGA Board will be meeting in January to review recommendations submitted by the NWGGA Growers' Council for use of these funds. At that time, the NWGGA Board will give approval to the Growers’ Council’s proposal.

**DMACC Registration Costs.** The Board allocated $4,500 to NWGGA to pay for registration costs associated with a two-credit on-line viticulture or enology course conducted through the Des Moines Area Community College (DMACC). To date, NWGGA has identified four individuals who would like to attend the course. However, the advertised courses were postponed due to staff changes at DMACC. NWGGA is requesting the Board modify this grant, so it will pay for registration costs for viticulture and enology courses offered at other educational institutions besides DMACC.

**NWGGA Web Site Enhancements.** Last fiscal year, the Board allocated $5,000 to NWGGA to improve their web site. The web site now allows NWGGA memberships to be purchased on-line. Memberships and other NWGGA events will be available for credit card or debit card purchase through PayPal. Prior use of this grant included a
member calendar board and a buyer/seller marketplace posting board for trading machinery and grapes.

University of Nebraska – Lincoln Viticulture Program Project Updates
Steve Gamet provided a brief overview of UNL’s Viticulture Program focus areas.

**Experimental Vineyards.** Experimentations are taking place at three Nebraska vineyards – Nemaha, Peru, and Nebraska City. Research emphasizes cultivar evaluation and selection, cold hardiness, disease and pest management, canopy management, spring bud-break, reduced input / organic studies, trellis construction systems, and rootstock and winter protection research. Many of the vines in this experiment are over 12 years old.

**On-Vineyard Research.** Several projects have been initiated in cooperation with commercial vineyards. Comparisons of five trellis systems for Frontenac, St. Croix, and Marquette are ongoing. Insect monitoring has been conducted on 13 sites in Nebraska and weather monitoring has taken place on over a dozen commercial vineyards. Mulching and ground cover studies, canopy management, and crop adjustment projects have also been pursued. One manuscript has been submitted for publication based upon the M.S. work of C. Bavougian.

**Campus-Based Research.** Propagation studies for new and difficult cultivars, lab studies of juice components, fruit wine projects, and cultivar and trellis studies are underway. One manuscript has been submitted for publication based upon C. Bavougian’s work.

**NE-1020 National Project.** This project involves testing of 13 cold-hardy varieties across a 13-state region. The project involves six plants per variety and three repetitions for a total of 18 plants for each variety in each state. The long-range goals include evaluation of fruit quality parameters and winemaking potential of the grapes produced in the project, using exactly the same protocols regardless of where they are produced.

**Educational Programs.** Examples of UNL educational resources and programs include the following:

a. *Nebraska Vine Lines Newsletter* (published four to six times per year)

b. Field Days

c. 15th Annual Nebraska Winery and Grape Growers’ Forum and Trade Show

d. Workshops

e. Radio and television spots
Booth Display Update
The Board approved up to $2,000 from the Winery and Grape Producers’ Promotional Fund to pay for the creation of a Board display banner. At the previous meeting, Bart presented nine different electronic banner designs for the Board to consider. The designs were made by Imagine Studios. Although each banner had a different image, each one included the Board’s mission statement and web site address. It was by unanimous consensus that two, eight-foot displays will be needed. The Board decided which two designs they liked most. Imagine Studios was the subcontractor hired to create the displays. The banners were created and were on display at the Board meeting. The cost for both displays (including the artwork) totaled $1,021.50.

Grape Grower Survey Update
Dave gave an update regarding the Board’s Grape Grower Survey. The survey is complete. There are 114 grape growers in Nebraska, 65 of who are NWGGA members. Nebraska has 126,159 vines planted on 338 acres. It was moved by Ellen and seconded by Bart that the entire report be approved as presented and placed on the Board’s web site. The motion passed by unanimous consent.

Board Staff Assistant RFP
Casey gave an update of the Board Staff Assistant position. Interviews were conducted earlier in the year, but NDA was unable to find a candidate suitable for this position. NDA further examined this position and asked the Board if this position could be changed, so the individual hired to fulfill this role would be that of a part-time Independent Contractor to the Board. Therefore, the position would be renamed as a Board Services Contractor. The Contractor would work closely with NDA on many projects, as they relate to the grape and wine industry. The Board agreed to the proposed changes. Casey said the first step to begin this process is to develop and distribute a Request for Proposal (RFP). The purpose of the RFP is to provide an overview of the duties, qualifications, background information, scope of work, agreement terms, compensation, application submission instructions, and evaluation and selection criteria associated with this position. An RFP was drafted by NDA ahead of time and it was handed out to the Board for their review. The Board approved the RFP.

Interested applicants are to submit, in a sealed envelope marked RFP #3797, a cover letter and résumé for review and approval by NDA and the Board. Cover letters and/or résumés should provide information sufficient for NDA to evaluate the proposals against
the evaluation criteria outlined in the RFP. Cover letters and résumés are due to NDA by close of business day on Friday, December 30, 2011. Applicants with the highest combined scores will be interviewed by NDA and the Board and scored again using the same seven criteria. The Agreement, between NDA and the Contractor, will serve a term that will expire on June 30, 2012, with five successive one-year options to renew. The Contractor’s work will begin as soon as possible, following the selection process. The Contractor is expected to be hired by January 2012. Compensation is set at approximately ten hours per week, with a total yearly value not to exceed $5,000.

**Nebraska Department of Economic Development, Division of Travel and Tourism**

Kathy McKillip and Karen Kollars from the Nebraska Department of Economic Development (DED), Travel and Tourism Division talked about their division’s approach to the development of a Strategic Plan.

On May 24, 2011, the Governor signed into law LB 684 enabling the Travel and Tourism Division to develop a program to provide promotional services and technical assistance to local governments and industry members and to ensure the protection and development of Nebraska’s attraction resources. DED will have an Advisory Committee to provide regular consultation to the Travel and Tourism Division, which has been named the Travel and Tourism Division Advisory Committee. The Advisory Committee includes, at a minimum, one representative from the Game and Parks Commission, one representative from the Nebraska Travel Association, one representative from the Nebraska Hotel and Motel Association, one representative from a tourism attraction that records at least 2,000 out-of-state visitors per year, and one representative from the Nebraska Association of Convention and Visitors Bureau. The Travel and Tourism Division Advisory Committee is currently developing a statewide Strategic Plan to cultivate and promote tourism in Nebraska. The Advisory Committee is adopting policy criteria to be used in the development of the Plan. The Plan shall include:

a. A review of the existing and potential sources of funding for tourism at the state and local levels;

b. A comprehensive inventory of local tourism boards, the structure of such boards, and their funding;

c. Criteria for local tourism boards in terms of appointments to such boards and for awarding grants by such boards at the local level to ensure local resources are used to achieve the greatest return;

d. An examination of other states’ funding models for tourism;

e. Marketing strategies for promoting tourism;
f. A proposal for creating new or expanding existing tourism capacity, which may include encouraging regional cooperation, collaboration, or privatization; and

g. Recommended legislation or funding requirements.

In October, DED hired a consultant to assist the Travel and Tourism Division Advisory Committee in developing the statewide Strategic Plan. The consultant’s first visit to Nebraska is slated for the second week in December. January 31 – February 1, 2012, is the Governor’s Agri/Eco Tourism Conference in North Platte. During the Conference, the Board is scheduled to meet with the consultant for 1 ½ hours on February 1st. When the Strategic Plan is complete, the Advisory Committee will present it to the Legislature by September 1, 2012.

2011 – 2012 Fiscal Year Report
Casey handed out the October 2011 fiscal report. Dave made a motion to allocate $12,000 to the NWGGA to pay for the Winery Bucks expenses associated with the 2011 Passport Program. It was seconded by Ellen. The motion passed by unanimous consent.

Terry made a motion to amend the DMACC contract, so $4,500 from the Winery and Grape Producers’ Promotional Fund to NWGGA can be used to pay for registration costs for viticulture and enology courses offered at other educational institutions besides DMACC. Funds used to offset these costs will provide an incentive for individuals interested or involved in the industry to enroll in this on-line course to increase their overall knowledge of the latest techniques and innovations for grape and wine production within the state of Nebraska. Participation in this course will help improve the competitiveness and betterment of Nebraska’s grape and wine industry. It was seconded by Dave. The motion passed by unanimous consent.

Dave made a motion to set aside $43,555 of the Board’s revenue and identify these funds as “unobligated expenditures” on the fiscal report. These funds are to be considered for disbursement, if other requests are presented to the Board before the end of the 2011 – 2012 fiscal year. It was seconded by Terry. The motion passed by unanimous consent.

Bart moved and Ellen seconded approval of the amended financial report. The motion carried.

Fiscal Year 2010 – 2011 Annual Report Review
Casey handed out a draft copy of the 2010 – 2011 Annual Report to the Board for their review. Terry moved to approve the annual report, post it on the Board’s web site, and mail a copy to each Board member and state senator. It was seconded by Bart. The motion carried.
Other Business

After the Board members completed their expense vouchers, it was suggested that the date of the next meeting be held on the Wednesday evening or Thursday morning prior to the 15th Annual Nebraska Winery and Grape Growers Forum and Trade Show.

Adjourn

Bart made a motion to adjourn and Terry seconded it. The motion passed. The meeting adjourned at 9:15 p.m.

Nebraska Winery and Grape Growers’ Association (NWGGA) Project Updates
Wine Quality Assurance Program Update (Phases I and II). Max provided the Board with an update regarding Nebraska’s Wine Quality Assurance Program. The Board allocated up to $12,000 from the Winery and Grape Producers’ Promotional Fund to initiate the development of a statewide Wine Quality Assurance Program administered by the consultant, Stephen Menke, and developed in consultation with NWGGA member wineries. Below is a summary of the activities completed under Phases I and II.

**Phase I**
The first phase of the project is complete. Stephen Menke assembled a Wine Sensory Quality Assurance Panel, which was an evaluation team that consisted of eight judges who scored the Nebraska wines. Twelve wineries participated and each was able to submit up to eight wines for evaluation. The intent of this project was to correct any flaws associated with each variety, so the quality of Nebraska wines can be improved. Wines were evaluated in a neutral laboratory set up at the University of Nebraska – Lincoln’s East Campus. They were evaluated by four trained panelists from a Hedonistic Panel (smell and taste) and four from a Quantitative Faults Panel (smell only). The scoring gave combined baseline scores of 22.4 out of 32 possible points, which indicated a sound commercial quality wine. The scores were tabulated and the results were presented by Stephen Menke at the 15th Annual Nebraska Wine and Grape Growers Forum in Kearney, Nebraska, in March 2012. The results of the study are currently available to the public through UNL’s Agronomy and Horticulture Department’s web site at [http://agronomy.unl.edu/c/document_library/get_file?uuid=44162997-a10d-41ba-8bf2-27c7510625ad&groupId=4128273&.pdf](http://agronomy.unl.edu/c/document_library/get_file?uuid=44162997-a10d-41ba-8bf2-27c7510625ad&groupId=4128273&.pdf).

**Phase II**
The second phase of the project is currently underway. In cooperation with NWGGA’s Winery Council, an Ad Hoc Committee has been formed which has reviewed the composite from Phase I. An educational workshop is being set-up for wineries and winemakers to attend. The workshop, which is expected to attract as many as 18 winemakers, will provide resources to assist wineries in addressing problems that are resulting in wine flaws. It is anticipated that this information can be used to make adjustments or corrections to wine productions, if necessary. At the next meeting, the Board can expect to receive a proposal aimed at moving this program forward. It is anticipated that new funds could be used to evaluate 150 additional wines, which would be accompanied by a lab analysis report. NWGGA supports this program and the possibility of what it can offer to the industry.

Seth McFarland, NWGGA President-Elect, gave an update of the following NWGGA projects.

**Executive Director.** A Professional Review Committee has been established by the NWGGA to evaluate the performance of the Executive Director. This committee is developing a set of evaluation criteria that will be written into a performance evaluation form. This tool will be used to measure the Executive Director’s performance. Following periodic evaluations, recommendations will be made to the NWGGA as whether to keep, change, or retain the individual serving in this capacity.
The Executive Director is currently handling Passport Program reimbursements, membership connections, quarterly newsletters, grants, legal issues, and corporate matters. André Mick is handling event coordination, constituent contacts, Passport design, and trade show registration. At the November 30, 2011, Board meeting, NWGGA was granted $12,000 from the Board to pay for “Winery Bucks” expenses directly associated with the 2011 Passport Program.

Wine Advertising Campaign. The Board allocated $6,100 to pay for a Stepped Up Premium Wine Advertising Campaign. The purpose of the project is to conduct a campaign to promote the quality and desirability of Nebraska wine products to consumers in Nebraska and across the country.

The NWGGA Board met in January 2012 and reviewed the recommendations submitted by NWGGA’s Marketing Committee as how to use these funds. The NWGGA Board gave approval to the Marketing Committee to hire IDEA Bank in Hastings, Nebraska, as the consultant to prepare a marketing plan for the Nebraska wine industry. From this plan, an effort toward enhancing the image of the Nebraska wine industry will be formulated and implemented.

It is anticipated that NWGGA will contract with IDEA Bank to create news releases touting the successes of NWGGA’s promotional programs. Topic examples used in the news releases might include the Passport Program, increasing the awareness of the use of wines for holiday cooking, and purchasing Nebraska wines as Christmas gifts.

Wine Expo/Festival. The Board allocated $12,000 to NWGGA to investigate and determine the feasibility and requirements for developing a Nebraska Wine Expo/Festival. A Nebraska Wine Expo/Festival will provide much needed exposure to the industry and can provide a stable source of income for the association to utilize. The initial vision for this activity is that it would develop into a weekend event that would contain a number of activities pertaining to the industry. Examples might include a tasting event featuring Nebraska wines and wine seminars tailored to the public (wine and food pairing, wine 101) and NWGGA members (in-depth learning session featuring pertinent speakers from across the country). The location, time of year, and other elements would be determined by this study.

On April 22nd, the NWGGA Board will decide who they will hire as the consultant to conduct this feasibility study. The consultant will work with the Expo Committee members and will travel to one (1) or two (2) successful festivals to get a feel for the atmosphere, obtain ideas, and visit with the festival directors to gain additional insight. The end goal is to develop a plan for a Nebraska Wine Expo/Festival.

Winery Council Workshop. The Board allocated $5,000 to NWGGA to conduct a workshop for Nebraska farm wineries. Below are the topics covered at the workshop held on February 29, 2012:

   a. The Federal Tax and Trade Bureau’s (TTB) compliance/audit issues;
b. Current OSHA compliance issues/policies/procedures as they pertain to Nebraska farm wineries.

Federal regulatory and compliance policies/procedures/issues continue to be an extremely difficult area for most farm wineries. Over time, these policies and issues continually change and, without the most recent information, wineries may inadvertently fall out of alignment. Upon the recommendation of TTB personnel, such comprehensive training should be conducted every two years. This information was addressed during the workshop.

**Strategic Plan Facilitation and Creation.** The Board allocated $5,000 to NWGGA to redevelop their Strategic Plan. NWGGA’s Strategic Plan is complete, and copies are now available.

**Grape Grower Educational Seminars.** The Board approved up to $5,000 from the Winery and Grape Producers’ Promotional Fund to NWGGA to conduct grape grower educational seminars. The purpose of the seminars was to provide the latest best management practices and technological innovations to grape growers across the state. The seminars were to cover Canopy Management and Crop Sustainability and some of the chapters addressed in the VINEBALANCE self-assessment workbook.

However, NWGGA found it difficult to set-up and organize these seminars. Therefore, the seminars have not yet been conducted, and it is highly likely that these funds will not be spent this fiscal year. However, NWGGA may request that the funds for this project be granted for the 2012-13 fiscal year.

**DMACC Registration Costs.** The Board allocated $4,500 to NWGGA to pay for registration costs associated with viticulture and enology courses offered at educational institutions. Only a few have inquired and are looking to enroll in the fall semester. Therefore, funds allocated towards this project will not be spent this fiscal year. NWGGA may ask the Board to re-fund this project for the 2012-13 fiscal year.

**2011 Passport Expenses.** The Board allocated up to $12,000 to NWGGA to pay for expenses associated with the 2011 Passport Program. Consumers who visit a participating location (and purchase a wine tasting), will receive a stamp. If enough stamps are obtained, NWGGA provides gift cards, called “Winery Bucks,” to those consumers. The Winery Bucks are used for the purchase of wine from any Passport participating location.

Board funds will be used to reimburse NWGGA for the 2011 Winery Bucks expenses.

**University of Nebraska – Lincoln Viticulture Program Project Updates**

Steve Gamet provided a brief overview of UNL’s Viticulture Program focus areas.
Western Nebraska Grape Project. In 2001, a grape variety trial was established at the Panhandle Research and Extension Center in Scottsbluff, Nebraska. A total of 15 varieties were planted in the initial year and various other varieties were added in subsequent years for a total of 37 varieties evaluated over a 10 year period. The later planted material was marginally suited to the area, but the material had grower and winery interest. Out of that material, only Vignoles, Prairie Star, Mars, and St. Vincent had fruit produced in one of the four years it was tested. Varieties that showed good potential for western Nebraska include Frontenac, Valiant, Leon Milot, Marcheal Foch, Elvira, and deChaunac with yield averaging above 10 pounds per plant. Yields were not taken in 2010 due to late spring freeze, heavy grasshopper pressure, and bird damage at harvest.

15th Annual Nebraska Winery and Grape Growers’ Forum and Trade Show. It was reported that the attendee numbers have declined over the past few years. Approximately 100 people attended the conference in March.

Travel and Tourism Consultant Meeting Update

As discussed at the last meeting, the Nebraska Department of Economic Development hired a consultant to assist the Travel and Tourism Division Advisory Committee in developing a statewide Strategic Plan. The consultant met with representatives of the Nebraska grape and wine industry during the Governor’s Agri/Eco Tourism Conference in North Platte earlier this year. Representatives from the Board and NWGGA met with the consultant and addressed the past, present, and future position of the industry. The Advisory Committee intends to present the Strategic Plan to the Legislature by September 1, 2012.

The Board intends to build upon their relationship with the Travel and Tourism Division to find ways with which financial resources can be combined to further promote the Nebraska grape and wine industry. After the Strategic Plan has been reviewed by the Board, a more detailed discussion will ensue to determine how the Board can more closely partner with this state agency on initiatives that cross promote both Nebraska’s tourism and grape and wine industry.

Terry moved for the authorization of one or more representatives from the Nebraska Grape and Winery Board and/or the NWGGA Board to meet with Kathy McKillip (or her representative) to discuss the partnership between tourism and the grape and wine industry in the state of Nebraska. It was seconded by Bart. Motion carried.

Board Services Contractor Update

Over the past couple of years, NDA hired a Board Staff Assistant to assist in the clerical duties of the Nebraska Grape and Winery Board. As stated at the previous meeting, NDA examined this position and, upon approval from the Board, decided to change this position to that of a part-time Independent Contractor. The position was renamed as the Nebraska Grape and Winery Board Services Contractor.
During the RFP process, interested applicants submitted a cover letter and résumé for review by NDA. Once the application deadline expired, NDA scored the applicants against the evaluation criteria outlined in the RFP. The applicants with the highest combined scores were interviewed by NDA and scored again using the same criteria. Four applicants were interviewed on January 31, 2012. It was decided by NDA, upon approval of the Board Chairman, that Ruth Anderson be hired as the individual to fill the Board Services Contractor position. Ruth accepted the position on February 1, 2012.

An Agreement, between NDA and the Contractor, was signed on March 1st. It will serve a term that will expire on June 30, 2012, with five successive one-year options to renew. Compensation is set at approximately ten hours per week, with a total yearly value not to exceed $5,000. The Contractor will work closely with NDA on many projects, as they relate to the grape and wine industry.

Ruth will be contacting those who received grant funds during the 2010-2011 fiscal year. She is responsible for compiling, reviewing, and editing their final reports.

2011 – 2012 Fiscal Year Report

Casey handed out the March 2012 fiscal report. It was mentioned that the Board has a large ending cash balance and that Ruth Anderson will be working with the NWGGA, UNL Viticulture Program, and other grantees on collecting invoices so that payments can be made.

Earlier in the meeting, NWGGA President, Seth McFarland, presented two proposals to the Board for funding consideration yet this fiscal year. The Board decided to discuss both proposals at this point during the meeting to determine if either or both were worthy of funding.

Travel Buddy Magazine Insert. The first was a request for $20,000 to pay for “Travel Buddy,” which would be a one-time edition, multipage magazine to be distributed in conjunction with the Nebraska Life magazine. The goal of this project is to showcase Nebraska wineries and activities and attractions located near each establishment. All Nebraska wineries would be notified and provided the opportunity to participate in this promotional activity. The magazine would include a picture and article of each winery and its respective local attractions. It would also include an Events Calendar enabling wineries to promote date specific events and activities. The magazine would be released during the spring of 2013. Nebraska Life would distribute this publication to their subscribers, which consists of approximately 40,000 people. An additional 10,000 copies would be provided to NWGGA to use for their own distribution.

To develop and print this one-time publication, it would cost NWGGA $35,000. The plan to obtain the funding was two-fold:
1. Secure a grant from the Board in the amount of $20,000.

2. NWGGA would request that each winery purchase at least one ad at $250 or possibly two adds for $500. It was anticipated that the combined total cost of the purchased ads would total $15,000.

The Board felt as though this project is vital to the future growth of the industry. Consequently, it was moved by Dave and seconded by Terry that the Board fund this project for $35,000, which was $15,000 beyond NWGGA’s original request. The motion passed by unanimous consent.

**Nebraska Wine Festivals.** The second NWGGA request was for $8,000 to provide for the financial underwriting of the Nebraska Wine and Jazz Festival and the Nebraska Wine and Balloon Festival in exchange for promotional recognition of NWGGA and Nebraska’s grape and wine industry. Nebraska wineries will be invited to showcase their wines at the wine pourings held in conjunction with the festivals. Dave moved and Terry seconded that the Board fund this project. The motion passed by unanimous consent.

**2010 – 2011 Passport Program Expenses.** Dave made a motion to add $7,113.76 to the Board’s 2011 – 2012 fiscal budget. This amount, which reimbursed NWGGA for expenses associated with the 2010-2011 Passport Program, was paid this fiscal year. It was seconded by Bart. The motion passed by unanimous consent.

**Grape and Winery Board Booth.** Since the total cost of the Grape and Winery Board’s booth was only $1,021.50, Terry made a motion to decrease the amount of this line item expenditure from $2,000 to $1,022. It was seconded by Dave. The motion passed by unanimous consent.

**Wine Quality Assurance Program (Phase III).** The Board strongly believes in the Wine Quality Assurance Program and was pleased with the results of Phases I and II. In an effort to aid in the continuation of this program, the Board decided to fund the next phase of this project, which will include a lab analysis of up to 120 wines ($12,000) and a Hedonistic Panel evaluation of up to 150 wines ($6,000). The Board has granted $18,000 for Phase III and intends to work with Stephen Menke to complete this project. This project is contingent upon Stephen Menke’s agreement to this project and his ability to complete these tasks by June 31, 2012. If this is not achievable, money for this project, during the current fiscal year, will remain unspent.

**Grape Grower Survey Update.** Dave gave an update regarding the Board’s Grape Grower Survey. The survey is complete. There are 114 grape growers in Nebraska, 65 who are NWGGA members. Nebraska has 126,159 vines planted on 338 acres. The report has been placed on the Board’s web site and can be found at [http://www.grapeandwineryboard.nebraska.gov/2011_grape_growers_survey.pdf](http://www.grapeandwineryboard.nebraska.gov/2011_grape_growers_survey.pdf).
Terry made a motion to reimburse Hannah Land and Cattle Company for an amount not to exceed $1,000. Funds will be used to pay for the expenses incurred in summarizing and tabulating the data for the 2011 Grape Growers Survey. The services rendered started March 2011 and ended December 31, 2011. Bart seconded the motion. Motion carried by unanimous consent.

Dave made a motion to approve the entire budget as amended. It was seconded by Terry. Motion carried.

2012 – 2013 RFP

Ruth handed out draft copies of the 2012 – 2013 Request for Proposal (RFP) application and instructions to the Board for review and approval. Max suggested that any RFP applications submitted via U.S. mail be postmarked no later than Saturday, May 12, 2012. Applications sent electronically should be directed to Ruth on or before Monday, May 14th. Ruth also distributed copies of a news release that will be sent to local media sources announcing the Board’s solicitation of grant proposals for the 2012 – 2013 fiscal year.

Max moved that the RFP application and instructions and news release documents be approved. Dave seconded. Motion carried. Ruth said the news release will be sent to local media outlets, NWGGA members, and UNL within the next couple of weeks. Casey said this information will also be posted on the Board’s website.

Other Business

After the Board members completed their expense vouchers, it was suggested that the date of the next meeting be held on Monday, May 21st in Kearney, Nebraska at the Wingate Inn. It will begin at 5:00 p.m.

Adjourn

Terry made a motion to adjourn and Dave seconded it. Motion carried. The meeting adjourned at 9:20 p.m.
Call to Order

Max McFarland called the meeting to order at 5:09 p.m.

Approve Agenda

The agenda was reviewed by the Board. It was moved and seconded by Dave and Bart, respectively, that the agenda be approved as presented. The motion carried.

Approve Minutes of April 2, 2012, Meeting

Max opened discussion regarding approval of the April 2, 2012, minutes. It was requested that changes be made on pages 3 and 4. It was recommended that line item “c” and the last paragraph on page 3 be stricken from the minutes. On page 4, under 2011 Passport Expenses, it was asked that a spelling correction be made to the phrase “Winery Bucks.” Dave motioned and Bart seconded that the minutes be approved, as corrected. The motion passed by unanimous consent.

Public Notice

It was noted that the date, time, and location of this meeting was published in the editions of the Norfolk Daily News, Star Herald, Grand Island Independent, Beatrice Daily Sun, and North Platte Telegraph.
Old Business

**Nebraska Winery and Grape Growers’ Association (NWGGA) Project Updates**

The NWGGA President, President-Elect, and Executive Director were not present at the meeting. Therefore, no official report was given. However, Max was able to give the Board an update regarding the progress on some of NWGGA’s Board-funded projects.

**Wine Quality Assurance Program.** NWGGA will accomplish the major components of this project during the 2012-13 fiscal year. Listed below are the three components:

- a. Sensory/Hedonistic Panel Evaluation
- b. Educational Follow-Up
- c. Chemical Analyses of Wines

The NWGGA will work with an enologist, who will serve as the project consultant. The first step will involve assembly of a Wine Sensory Quality Assurance Panel. Nebraska wineries will be able to submit wines for evaluation. Wines will be evaluated in a laboratory by trained panelists from a Hedonistic Panel (smell and taste) and from a Quantitative Faults Panel (smell only). Once completed, the scores will be tabulated and combined to provide an aggregate overview of the quality of Nebraska’s commercial wines. The intent is to identify any wine flaws associated with each variety so corrections can be made to improve the quality of Nebraska wines.

The second step will involve an educational workshop for Nebraska winemakers. This will be a one- or two-day seminar that will serve as a follow-up to the wine evaluations. It will provide resources to assist wineries in addressing problems that result in wine flaws. It is anticipated that the information provided at the workshop will be used to make adjustments or corrections to wine productions, if necessary.

The third step involves a chemical analyses of Nebraska wines in a laboratory. Chemical tests will be run to identify acidity, bacteria, glucose, fructose, and other ingredients that are included in bottled wines.

During the meeting, the Board decided to allocate $24,000 to the NWGGA to accomplish the major components of this project during the 2012-13 fiscal year.

**Executive Director.** It was mentioned that the NWGGA Executive Director will resign effective July 31, 2012. NWGGA plans to hire an individual to fill this soon-to-be vacated position.

**Wine Expo/Festival.** NWGGA hired a consultant to investigate and determine the feasibility and requirements for developing a Nebraska Wine Expo/Festival. The consultant will work with the Expo Committee members and will travel to one or two successful festivals to get a feel for the atmosphere, obtain ideas, and visit with the
festival directors to gain additional insight. The end goal is to develop a plan for a Nebraska Wine Expo/Festival.

A Nebraska Wine Expo/Festival will provide much needed exposure to the industry and can provide a stable source of income for the association to utilize. The initial vision for this activity is to develop a weekend event that would contain a number of activities pertaining to the industry. Examples might include a tasting event featuring Nebraska wines and wine seminars tailored to the public (wine and food pairing, wine 101) and NWGGA members (in-depth learning session featuring pertinent speakers from across the country). The location, time of year, and other elements will be determined by this study.

**Mac’s Creek Vineyards and Winery – Cold Hardiness Study**

Max provided a brief report regarding his cold hardiness study. It was reported that last year’s study results indicated that a 14-day delay can be attained with two Amigo Oil applications while no significant delay resulted from a single application. The study was to determine the effects of single versus multiple applications. The unusual weather conditions of the past winter and spring seasons made it difficult to determine whether these results can be replicated and expected in future years. This study will need to be conducted a second year to obtain more concrete data.

**University of Nebraska – Lincoln Viticulture Program Project Updates**

Dr. Paul Read provided a brief overview of UNL’s Viticulture Program focus areas.

**Western Nebraska Grape Project.** In 2001, a grape variety trial was established at the Panhandle Research and Extension Center in Scottsbluff, Nebraska. A total of 15 varieties were planted in the initial year and various other varieties were added in subsequent years for a total of 37 varieties evaluated over a 10 year period. The later planted material was marginally suited to the area, but the material had grower and winery interest. Out of that material, only Vignoles, Prairie Star, Mars, and St. Vincent had produced fruit in one of the four years it was tested. Varieties that showed good potential for western Nebraska include Frontenac, Valiant, Leon Milot, Marcheal Foch, Elvira, and deChaunac with yield averaging above 10 pounds per plant. Yields were not taken in 2010 due to late spring freeze, heavy grasshopper pressure, and bird damage at harvest. Overall, it was discovered that some cultivars fared well in Nebraska’s panhandle climate, and a summary of UNL’s evaluation in this area of the state will remain on UNL’s web site.

The Western Nebraska Project has closed. Jim Schild (UNL Extension Educator at the Panhandle Research and Extension Center) resigned in 2011. This position has been redefined to focus on dry edible beans, and UNL decided to destroy the viticulture test plot in Scottsbluff. All vines have been removed.

**Northeast Nebraska Regional 1020 Program.** The UNL Viticulture Program was accepted into the Northeast Nebraska Regional 1020 Program, which is a federally-
funded program. Uniform data analysis using a lab in Iowa will be performed to study cultivar performance.

**Trellis Systems.** UNL continues to research trellises that are used for bearing fruit. Despite the invasion of deer, there has been some fruit success. It has been discovered that 6 foot trellis systems work better for production than the 3 foot systems. Some repellant, including hot peppers, rotten eggs, and dryer sheets, have been used to deter deer from entering the vineyards and damaging the crop.

**Amigo Oil.** The UNL Viticulture Program has applied Amigo Oil to grape vines in an effort to delay bud break. This research is parallel to Mac’s Creek’s Cold Hardiness Study.

**Vineyard Floor Management Practices.** UNL is also working with James Arthur Vineyards to research best management practices for vineyard floors. The use of ethanol byproducts and other materials, such as crushed glass, oyster shells, and dry grains, are being considered as alternative, conventional mulch applications for moisture retention and weed control.

**Growing Degree Day Study.** Preliminary data has been collected to measure the growing degree days in Nemaha, Peru, and Nebraska City. There were 374, 344, and 339 days in Nemaha, Peru, and Nebraska City, respectively, where temperatures did not drop below 50 degrees Fahrenheit. The number of growing degree days increased 300% compared to previous years.

**Insect and Disease Management Practices.** Insect and disease management continues to be monitored. In the eastern portion of the United States, there is a migration of the Multicolored Asian Lady Beetle and the Brown Marmorated Stink Bug, both of which are nuisance pests.

**New Business**

On April 4th, the Board released an RFP seeking grant proposals from individual growers, farm wineries, organizations, industry groups, or academic institutions that aimed to assist in the betterment of Nebraska’s grape and wine industry. The Board’s goal was to fund meaningful projects during the 2012-13 fiscal year that would have the highest likelihood of significant, positive impact on grape and wine production in Nebraska. Applications were due by U.S. Mail on Saturday, May 12th or electronically by Monday, May 14th. All proposals were submitted to Ruth Anderson, the Board’s Services Contractor. After the proposal deadline had expired, Ruth sent all of the proposals to the Board members for their review. The Board members ranked each proposal against a score sheet that accompanied each proposal. A total of 14 proposals were submitted.

Max made a motion to move agenda item “b. Review of Proposals” to the first order of business under the New Business portion of the meeting. It was seconded by Dave.
The motion carried. Below is a brief overview of the proposals that were received.

**Pomace Processing Project.** Hilary Niver-Johnson’s proposal would identify and communicate methods of increasing vineyard sustainability by reducing energy inputs, increasing output and creating methods for recovering bio-products from the traditional waste streams of grape pruning and grape pressing. Hilary attended the meeting to field questions from the Board regarding her proposal.

**UNL Viticulture Program.** Dr. Read’s proposal would pay for the viticulture technologist’s salary and benefits, student hourly labor, fertilizers, chemicals, trellis materials, planting stock, drip irrigation, fuel and vehicle rental costs, travel expenses, and indirect costs involved in the oversight and implementation of viticulture program activities. These activities are continuous from one year to the next. Like previous years, they would consist of:

a. Cultivar and new genotype evaluation;

b. Multi-state project evaluating performance of a common set of grape cultivars in multiple locations;

c. Studies of trellis construction systems and new cultivar performance;

d. Evaluation of cold-hardiness, spring bud-break, and cold temperature damage prevention and management;

e. Potential efficacy of chemical and physical treatments on seedless table grape vines to delay spring bud-break;

f. Mulch and ground cover studies;

g. Research to determine the number of Growing Degree Days (GDD) required for specific cultivars to reach bud-break and the GDD number between bud-break and harvest;

h. Disease and insect management;

i. Reduced pesticide input;

j. Sustainable and potentially organic grape production projects; and

k. Educational programming, including the Annual Forum, workshops, field days, and formal UNL courses.

Dr. Read attended the meeting to answer questions regarding his proposal. He also took a moment to speak on behalf of three other UNL proposals submitted to the Board for funding under the 2012-13 fiscal year. These proposals consisted of the following:
1. **High Value Fibers and Composites from Grape Vines.** Professor Yiqi Yang’s proposal would extract high quality natural cellulose fibers from grape vines and utilize the grape vine fibers to develop high value composites.

2. **Mycoprotein Fumonisins in Nebraska Grapes and Wines.** Liangcheng Du’s proposal would investigate fumonisin contamination in Nebraska’s grapes and wines.

3. **Compounds in Grapes & Leaf Extracts Decrease Obesity Risk.** Dr. Janos Zempleni’s proposal would establish a strategic alliance with grape and wine producers in Nebraska in order to demonstrate the belief that the consumption of grape products can help combat the nation’s obesity epidemic.

Mac’s Creek Vineyards and Winery submitted the following two proposals:

1. **Amigo Oil: Single vs. Multiple Applications.** This proposal would begin the second year of investigating the effects of single versus multiple applications of the Amigo Oil to grape vines.

2. **Increasing Sustainability of Viticulture in Nebraska by "Going Green."** This proposal would investigate the feasibility of utilizing ozone technology to control viticulture diseases.

The NWGGA submitted seven proposals. They were as follows:

1. **NWGGA Executive Management Services.** This proposal would fund an Executive Director position, which would increase the competitiveness and sustainability of Nebraska’s grape and wine industry.

2. **NWGGA Regional Wine Festivals.** This proposal would provide for the financial underwriting of two regional wine festivals in exchange for promotional recognition of NWGGA and Nebraska’s grape and wine industry. Nebraska wineries would be invited to showcase their wines at the wine pouring held in conjunction with the festivals.

3. **NWGGA Economic Impact Study.** This proposal would enable the NWGGA to hire a research analyst to conduct a current economic impact study of the production of wine and grapes in Nebraska. This report would gauge where the industry stands in the current business climate.

4. **NWGGA Education Program.** This proposal would enable the NWGGA to schedule a series of educational seminars to provide the latest industry related best management practices and other technological innovations to Nebraska wineries and grape growers.
5. **NWGGA Marketing Program.** The objective of this proposal would consist of promoting the quality of Nebraska wines, increasing the total percent of Nebraska wines sold within the state, turning the novelty of less familiar wine varieties into an advantage, and emphasizing the Wine Quality Assurance Program among NWGGA members. A detailed marketing and branding campaign of Nebraska wines would promote the quality and desirability of Nebraska wine products to consumers in Nebraska and across the country.

6. **NWGGA Passport Program 2012 – 2013.** This proposal would pay for the expenses associated with the 2012 – 2013 Passport Program.

7. **NWGGA Wine Quality Assurance Program.** This proposal would continue the development of a statewide Wine Quality Assurance Program. The activities would be multi-faceted, administered by a consultant, and developed in consultation with NWGGA member wineries.

**2011 – 2012 Fiscal Year Report**

Casey handed out the April 2012 fiscal report. He mentioned that the Board has a large ending cash balance and that Ruth Anderson will be working with the NWGGA and other grantees on collecting invoices so that payments can be made before June 30\textsuperscript{th}. Dave made a motion to approve the April budget as presented. It was seconded by Bart. Motion carried.

Casey then handed out the proposed 2012-13 fiscal year budget. It was estimated that the Board would carryover $49,000 into the 2012-13 fiscal year. The Board estimated to collect $171,490 in total revenue under the upcoming fiscal year. This would give the Board a total available cash balance of $220,490.

**Discuss allocations of Funding for 2012-2013 Fiscal Year**

between

MAC’S CREEK VINEYARD AND WINERY

and

NEBRASKA DEPARTMENT OF AGRICULTURE

#18-13-060

This Agreement entered into by and between Mac’s Creek Vineyard and Winery, hereinafter called the “Vineyard,” and the Nebraska Department of Agriculture, hereinafter called the “Department,” provides for the funding from the Nebraska Grape and Winery Board to the Vineyard toward research activities to assist in the betterment of Nebraska’s grape and wine industry.

WHEREAS, it has been proven that high-quality wine grapes and wines can be produced in Nebraska;

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed the Department to provide funds to the Vineyard for a study of grapevine cold hardiness;

WHEREAS, the research activities conducted by the Vineyard will greatly assist the Nebraska grape and winery industry; and

WHEREAS, both parties hereto desire to enter into this Agreement in order to further enhance Nebraska’s grape and wine industry.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties hereto that:

1. The Nebraska Grape and Winery Board approved up to five thousand five hundred dollars ($5,500) from the Winery and Grape Producers' Promotional Fund to assist the Vineyard in paying for the fifth year of a cold hardiness study.

   Similar to the past four years, this project will investigate the effects of applying Amigo Oil to dormant grape vines in order to delay bud break so that considerable damage from cold temperatures can be avoided.
However, minimal research, with inconclusive and equivocal results, has attempted to evaluate the number of applications necessary to maximize these results. Therefore, this project will investigate the effects of single versus multiple applications of the Amigo Oil to grape vines. The results from this study could make it possible for grape growers to significantly increase profitability without having to increase the number of acres planted. Specific research questions that will be addressed during this project will include:

a. Is there a difference in the extent of bud delay when comparing single versus multiple applications across three cultivars in a commercial vineyard application?

b. Is there a difference in the extent of bud delay when comparing single versus multiple applications within each of the three cultivars investigated (i.e., Marechal Foch, Brianna, Edelweiss)?

c. Is there a difference in the degree of bud delay related to the number of applications?

Each of the three cultivars (Marechal Foch, Brianna, and Edelweiss) will be divided into four groups by row and will consist of at least 30 vines in each group. The Control Group and will not receive any Amigo Oil applications, Treatment #1 will receive one, Treatment #2 three, and Treatment #3 five.

Up to five thousand five hundred dollars ($5,500) will pay for the costs associated with this project, which include Amigo Oil, labor, equipment leasing, research assistant, research consultant, mileage, and lodging.

2. Duration of Agreement: This Agreement shall be in force and effective from July 1, 2011, to June 30, 2012.

3. The Department agrees to provide the funds as set out in Paragraph 1, from the Winery and Grape Producers' Promotional Fund.

4. The Vineyard shall provide a written final report to the Department within ninety (90) days after the Agreement has expired. The report, which shall describe the results of the project and use of funds, will be made public by the Nebraska Grape and Winery Board.

5. Payment in the amount of up to five thousand five hundred dollars ($5,500) from the Winery and Grape Producers' Promotional Fund to the Vineyard will be payable, in full, upon both parties signing this Agreement, and the Vineyard incurring an obligation for this project. The Vineyard
shall present an invoice to the Department from which payments shall be made.

6. Funding for this project is subject to legislative appropriations and funding being available. Any unused funds shall be refunded to the Department and credited back to the Winery and Grape Producers’ Promotional Fund.

b. This Agreement incorporates the complete understanding of the parties. Any modification of the Agreement shall be in writing and executed by each party of the Agreement to be valid.

and
NEBRASKA DEPARTMENT OF AGRICULTURE
#18-13-148

This Agreement, in force and effective July 1, 2011, to June 30, 2012, between the Nebraska Winery and Grape Growers’ Association (NWGGA) and the Nebraska Department of Agriculture is hereby amended as follows:

Page 1, paragraph 1, shall be amended to read:

1. The Nebraska Grape and Winery Board approved up to four thousand five hundred dollars ($4,500) from the Winery and Grape Producers’ Promotional Fund to NWGGA to pay for registration costs associated with an on-line viticulture or enology course from an educational institution.

Participation in this course will help improve the competitiveness and betterment of Nebraska’s grape and wine industry.

The goal of this program is to enhance the collective knowledge in the grape and wine production industries within the state of Nebraska. It is anticipated that the on-line course applicants will collectively impute their knowledge to fellow co-workers, thereby increasing the overall impact of the program.

WHEREAS, it has been proven that high-quality wine grapes and wines can be produced in Nebraska;

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed the Department to provide funds to NWGGA;

The purpose of this project is to conduct a campaign to promote the quality and desirability of Nebraska wine products to be conducted...
regionally and across the country. The project is separated into three parts, but the Board approved only the first two.

This Agreement, entered into by and between the Nebraska Winery and Grape Growers’ Association, hereinafter called the “NWGGA,” and the Nebraska Department of Agriculture, hereinafter called the “Department,” provides for the funding from the Nebraska Grape and Winery Board to NWGGA to conduct a feasibility study for a Nebraska Wine Expo/Festival.

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, both parties hereto desire to enter into this Agreement in order to further promote Nebraska’s grape and wine industry.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties hereto that:

1. The Nebraska Grape and Winery Board approved up to twelve thousand dollars ($12,000) from the Winery and Grape Producers’ Promotional Fund to NWGGA to investigate and determine the feasibility and requirements for developing a Nebraska Wine Expo/Festival.

Grant funds will be used to pay for the following activities:
a. Hire a consultant to give the Expo Committee an overview of what is needed to host a festival;

b. The Expo Committee members will travel to one (1) to two (2) successful festivals in the country to get a feel for the atmosphere, obtain ideas, and visit with the festival directors to gain additional insight; and

This Agreement, entered into by and between the Nebraska Winery and Grape Growers’ Association, hereinafter called the “NWGGA,” and the Nebraska Department of Agriculture, hereinafter called the “Department,” provides for the funding from the Nebraska Grape and Winery Board to NWGGA to conduct workshops for Nebraska farm wineries.

1. The Nebraska Grape and Winery Board approved up to five thousand dollars ($5,000) from the Winery and Grape Producers’ Promotional Fund to NWGGA to conduct workshop(s) for Nebraska farm wineries. Below are the topics to be covered at the workshop(s):
a. The Federal Tax and Trade Bureau’s (TTB) compliance/audit issues;
b. Current OSHA compliance issues/policies/procedures as they pertain to Nebraska farm wineries;
c. Prevention of wine faults and filtration techniques.

Federal regulatory and compliance policies/procedures/issues continue to be an extremely difficult area for most farm wineries. Over time, these policies and issues continually change and, without the most recent information, wineries may inadvertently fall out of alignment. Upon the recommendation of TTB personnel, such comprehensive training should be conducted every two years. This information will be addressed during the workshop(s).

Secondly, Scott Laboratories will present a seminar on the prevention of wine faults from yeasts, bacteria, nutritional imbalance, and sanitation. They will also discuss filtration techniques. This information is to be applied to Nebraska wineries to identify problems in their wine making practices and to help improve the quality of their wines.

Funds are only to be used to pay for speaker honorariums, speaker expenses, meeting room cost(s), and workshop materials.

Agreement
between
MID-NEBRASKA WINE TRAIL
and
NEBRASKA DEPARTMENT OF AGRICULTURE
#18-13-159

This Agreement, entered into by and between the Mid-Nebraska Wine Trail, hereinafter called the “MNWT,” and the Nebraska Department of Agriculture, hereinafter called the “Department,” provides for the funding from the Nebraska Grape and Winery Board to MNWT toward funding a wine trail located in the central region of the state. This project is designed to assist in the betterment of Nebraska’s grape and wine industry.

WHEREAS, it has been proven that high-quality wine grapes and wines can be produced in Nebraska;

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed the Department to provide funds to MNWT;

WHEREAS, the promotional activities conducted by MNWT will greatly assist the Nebraska grape and winery industry;

WHEREAS, both parties hereto desire to enter into this Agreement in order to further promote Nebraska’s grape and wine industry.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties hereto that:

1. The Nebraska Grape and Winery Board approved up to five thousand dollars ($5,000.00) from the Winery and Grape Producers’ Promotional Fund to assist in paying for development of a web site, wine trail consultation, print advertisements, and marketing campaign designed to build awareness of the MNWT. Below are more details describing how these funds will be used.
a. Central Nebraska is home to approximately 25% of Nebraska’s population. This trail will focus on enriching the life experiences of adults. It is hoped that traffic from new customers in central Nebraska and areas east toward the Omaha metro region will be attracted to activities planned and sponsored by this trail.

b. Advertising: Web page development promoting the trail and trail events will be a key element in posting activities and promoting special events. Other printed promotional material will need to be developed in order to assist in achieving a 3,000 person increase in annual visits per winery.

c. Wine trail consultation will be sought with one of the region’s foremost experts on wine trails. This individual will be hired to provide advice on additional efforts, event ideas, and organizational strategies that will help MNWT succeed the first three (3) years after the formation of the MNWT Association. Additional time with the consultant might be scheduled for Nebraska Winery and Grape Growers’ Association members, should sufficient interest be expressed.

d. Collaborative efforts to include other area attractions will be made to enhance the tourism attractiveness for the area surrounding each of the participating wineries.

The primary goal of this project is to focus marketing efforts between the three (3) wineries in central Nebraska by establishing collaborative events, which are designed to generate enough money to fund the annual events in subsequent years. The funds will be used to pay for the costs associated with these events.

2. Duration of Agreement. This Agreement shall be in force and effective from July 1, 2011, to June 30, 2012.

3. MNWT agrees to provide a final report to the Department within 90 days after the Agreement expires.

4. The Department agrees to provide the funds as set out in Paragraph 1, from the Winery and Grape Producers’ Promotional Fund.

5. Payment in the amount of up to five thousand dollars ($5,000.00) from the Winery and Grape Producers’ Promotional Fund to the MNWT will be payable in full upon both parties signing this Agreement and MNWT incurring an obligation. MNWT shall present invoices to the Department from which payments shall be made.
6. MNWT shall provide a written final report to the Department within ninety (90) days after the Agreement has expired. The report, which shall describe the results of the project and the use of funds, will be made public by the Nebraska Grape and Winery Board.

7. Funding for these projects are subject to legislative appropriations and funding being available. Any unused funds shall be refunded to the Department and credited back to the Winery and Grape Producers’ Promotional Fund.

9. MNWT shall utilize funds provided by the Department to conduct the duties called for in this Agreement. Department funds collected from a checkoff fee paid by the industry are not to be used to pay administrative or indirect costs.

10. The parties mutually agree as follows:

   a. MNWT shall:

      (1) Not discriminate against recipients of services on the basis of race, color, religion, national origin, sex, disability, or age; and

      (2) Not discriminate against any employee or applicant for employment on the basis of race, color, religion, national origin, sex, or qualified disability.

      (3) It is further understood and agreed that, if MNWT is in violation of this clause, it shall be barred forthwith from receiving further funds, unless a satisfactory showing is made indicating discriminatory practices have terminated and a recurrence of such act or action is unlikely.

   b. This Agreement incorporates the complete understanding of the parties. Any modification of the Agreement shall be in writing and executed by each party of the Agreement to be valid.

   c. MNWT agrees to have in force, during the Agreement period, and available for inspection, a policy regarding a drug-free workplace. The policy shall contain:

53-123.10 **Farm winery license; when issued.**

A license to operate a farm winery may be issued by the commission upon an applicant's compliance with section 53-123.12 and such other requirements as the commission adopts and promulgates by rule and regulation to administer §§53-101.02 and 53-123.10 to 53-123.13.

53-123.11 **Farm winery license; rights of licensee; removal of unsealed bottle of wine; conditions.**

(1) A farm winery license shall entitle the holder to:

(a) Sell wines produced at the farm winery onsite at wholesale and retail and to sell wines produced at the farm winery at off-premises sites holding the appropriate retail license;

(b) Sell wines produced at the farm winery at retail for consumption on the premises;

(c) Permit a customer to remove one unsealed bottle of wine for consumption off the premises. The licensee or his or her agent shall (A) securely reseal such bottle and place the bottle in a bag designed so that it is visibly apparent that the resealed bottle of wine has not been opened or tampered with and (B) provide a dated receipt to the customer and attach to such bag a copy of the dated receipt for the resealed bottle of wine.

(ii) If the resealed bottle of wine is transported in a motor vehicle, it must be placed in the trunk of the motor vehicle or the area behind the last upright seat of such motor vehicle if the area is not normally occupied by the driver or a passenger and the motor vehicle is not equipped with a trunk;
(d) Ship wines produced at the farm winery by common carrier and sold at retail to recipients in and outside the State of Nebraska, if the output of such farm winery for each calendar year as reported to the commission by December 31 of each year does not exceed thirty thousand gallons. In the event such amount exceeds thirty thousand gallons, the farm winery shall be required to use a licensed wholesaler to distribute its wines for the following calendar year, except that this requirement shall not apply to wines produced and sold onsite at the farm winery pursuant to subdivision (1)(a) of this section;

(e) Allow sampling of the wine at the farm winery and at one branch outlet in the state in reasonable amounts;

(f) Sell wines produced at the farm winery to other Nebraska farm winery licensees, in bulk, bottled, labeled, or unlabeled, in accordance with 27 C.F.R. 24.308, 27 C.F.R. 24.309, and 27 C.F.R. 24.314, as such regulations existed on January 1, 2008; and

(g) Purchase distilled spirits from licensed microdistilleries in Nebraska, in bulk or bottled, made entirely from Nebraska-licensed farm winery wine to be used in the production of fortified wine at the purchasing licensed farm winery.

(2) No farm winery shall manufacture wine in excess of fifty thousand gallons per year.

(3) A holder of a farm winery license may obtain a special designated license pursuant to section 53-124.11.

(4) A holder of a farm winery license may obtain an annual catering license pursuant to section 53-124.12.

53-123.12 Farm winery license; application requirements; fees.

Any person desiring to obtain a new license to operate a farm winery shall:

(1) File an application with the commission in triplicate original upon such forms as the commission from time to time prescribes;

(2) Pay the license fee to the commission under subdivision (2) of section 53-124, which fee shall be returned to the applicant if the application is denied; and

(3) Pay the state registration fee to the commission in the sum of forty-five dollars.
License fees and registration fees may be paid to the commission by certified or cashier's check of a bank within this state, personal or business check, United States post office money order, or cash in the full amount of such fees. The commission shall then notify, by registered or certified mail marked return receipt requested with postage prepaid, the municipal clerk of the city or incorporated village where such license is sought or, if the license is not sought within a city or incorporated village, the county clerk of the county where such license is sought of the receipt of the application and shall enclose with such notice one copy of the application. No such license shall then be issued by the commission until the expiration of at least forty-five days from the date of mailing such application by the commission. Within thirty-five days from the date of receipt of such application from the commission, the local governing bodies of nearby cities or villages or the county may make and submit to the commission recommendations relative to the granting of or refusal to grant such license to the applicant.

53-123.13 Farm winery; waiver of requirement; when; conditions.

(1) If the operator of a farm winery is unable to produce or purchase seventy-five percent of the grapes, fruit, or other suitable agricultural products used in the farm winery from within the state due to natural disaster which causes substantial loss to the Nebraska-grown crop, such operator may petition the commission to waive the seventy-five-percent requirement prescribed in subdivision (31) of section 53-103 for one year.

(2) It shall be within the discretion of the commission to waive the seventy-five-percent requirement taking into consideration the availability of products used in farm wineries in this area and the ability of such operator to produce wine from products that are abundant within the state.

(3) If the operator of a farm winery is granted a waiver, any product purchased as concentrated juice from grapes or other fruits from outside of Nebraska, when reconstituted from concentrate, may not exceed in total volume along with other products purchased the total percentage allowed by the waiver.

(4) Any product purchased under the waiver or as part of the twenty-five percent of allowable product purchased that is not Nebraska-grown for the production of wine shall not exceed the twenty-five percent volume allowed under state law if made from concentrated grapes or other fruit, when reconstituted. The concentrate shall not be reduced to less than twenty-two degrees Brix in accordance with 27 C.F.R. 24.180.

(1) No person shall order or receive alcoholic liquor in this state which has been shipped directly to him or her from outside this state by any person other than a holder of a shipping license issued by the commission, except that a licensed wholesaler may receive not more than three gallons of wine in any calendar year from any person who is not a holder of a shipping license.

(2) The commission may issue a shipping license to a manufacturer. Such license shall allow the licensee to ship alcoholic liquor only to a licensed wholesaler, except that a licensed wholesaler may, without a shipping license and for the purposes of subdivision (2) of section 53-161, receive beer in this state which has been shipped from outside the state by a manufacturer in accordance with the Nebraska Liquor Control Act to the wholesaler, then transported by the wholesaler to another state for retail distribution, and then returned by the retailer to such wholesaler. A person who receives a license pursuant to this subsection shall pay the fee required in sections 53-124 and 53-124.01 for a manufacturer’s shipping license. Such fee shall be collected by the commission and be remitted to the State Treasurer for credit to the General Fund.

(3) The commission may issue a shipping license to any person who deals with vintage wines, which shipping license shall allow the licensee to distribute such wines to a licensed wholesaler in the state. For purposes of distributing vintage wines, a licensed shipper must utilize a designated wholesaler if the manufacturer has a designated wholesaler. For purposes of this section, vintage wine shall mean a wine verified to be ten years of age or older and not available from a primary American source of supply. A person who receives a license pursuant to this subsection shall pay the fee required in sections 53-124 and 53-124.01 for a vintage wine dealer’s shipping license. Such fee shall be collected by the commission and be remitted to the State Treasurer for credit to the General Fund.

(4) The commission may issue a shipping license to any person who sells and ships alcoholic liquor from another state directly to a consumer in this state. A person who receives a license pursuant to this subsection shall pay the fee required in sections 53-124 and 53-124.01 for a direct sales shipping license. Such fee shall be collected by the commission and remitted to the State Treasurer for credit to the Winery and Grape Producers’ Promotional Fund.

(5) The application for a shipping license shall be in such form as the commission prescribes. The application shall contain all provisions the commission deems proper and necessary to effectuate the purpose of any section of the act and the rules and regulations of the commission that apply to manufacturers and shall include, but not be limited to, provisions that the applicant, in consideration of the issuance of such shipping license, agrees:

(a) To comply with and be bound by section 53-164.01 in making and filing reports, paying taxes, penalties, and interest, and keeping records;
(b) To permit and be subject to all of the powers granted by section 53-164.01 to the commission or its duly authorized employees or agents for inspection and examination of the applicant's premises and records and to pay the actual expenses, excluding salary, reasonably attributable to such inspections and examinations made by duly authorized employees of the commission if within the United States; and

(c) That if the applicant violates any of the provisions of the application or the license, any section of the act, or any of the rules and regulations of the commission that apply to manufacturers, the commission may revoke or suspend such shipping license for such period of time as it may determine.
