OVERVIEW OF ACTIVITIES
EXECUTIVE SUMMARY

The Board of Directors met twice during the fiscal year. The year began July 1, 2013, and ended June 30, 2014. Emphasis was placed on supporting marketing and promotional activities and conducting research to assist in the betterment and development of Nebraska’s grape and wine industry.

Board revenue originates from shipper license fees, crushed grape fees, and grape excise taxes. Revenue from these sources is remitted to the State Treasurer for credit to the Winery and Grape Producers’ Promotional Fund. As in previous years, the revenue over the past several years has enabled the Board to fund several meaningful projects aimed at enhancing the competitiveness of Nebraska’s grape and wine industry. Priority funding was given to marketing and research projects targeted at increasing the sales and production of Nebraska grapes and/or wines. A total of 13 projects were approved for funding, which totaled $210,009; $191,011.75 of this amount was submitted to the Nebraska Department of Agriculture (NDA) for reimbursement. For a complete list of all projects, and their respective amounts, please refer to the 2013 – 2014 fiscal report found in this report.

The Board released a Request for Proposal (RFP) in February 2014 seeking grant proposals from individual growers, farm wineries, organizations, industry groups, or academic institutions for the 2014 – 2015 fiscal year. A total of nine proposals were approved for funding. A copy of the RFP is included in this report.

Promotion of Nebraska’s grape and wine industry continues to be a primary goal of the Board. The Board helps the grape and wine industry in becoming a strong and important part of Nebraska’s thriving economy. They stay abreast of recent legislation affecting Nebraska’s grape and wine industry, supports Nebraska Winery and Grape Growers Association (NWGGA) activities, and works closely with the University of Nebraska-Lincoln to receive guidance and education based upon industry research.

This Annual Report includes the Board’s strategic plan, meeting minutes, RFP, 2013 – 2014 fiscal report, contracts, bylaws, statutes, and other documents pertaining to Board matters. Documents and information pertinent to the Board’s functions and history can also be found at http://www.grapeandwineryboard.nebraska.gov.
STRATEGIC PLAN
INTRODUCTION

This Strategic Plan represents the vision and direction of the Nebraska Grape and Winery Board (NGWB). This is an adaptive, non-static document subject to change with new and/or additional input. It is not a standalone document. It is designed to work in conjunction with each year’s operational budget and funded projects. The Board believes that strategic planning is not a one-time effort. Once goals are set, commitment will be maintained, progress monitored, and adjustments made until the objectives are reached. This plan demonstrates the commitment which is needed to provide an excellent standard of programs and budget allocations designed to continuously meet the needs of the industry.

MISSION STATEMENT

The NGWB’s mission statement is to work collaboratively towards a profitable, sustainable future that advances the interests of Nebraska’s grape and wine industry through advocacy and education.

The purpose of the NGWB is to further the growth and economic development of the grape-growing and wine-making industry in the state of Nebraska to a maximum level as supported by the favorable soil and climatic conditions existing in Nebraska and to satisfy the market demand for grapes and wine inside and outside of Nebraska. The end objective is to create an economically viable alternative farm crop and wine industry in Nebraska that will enhance the economic condition of the farm industry and the state of Nebraska.

The duties and responsibilities of the NGWB include, but are not limited to, the following:

a. Establish a public forum whereby any producer of wine, grapes, or other wine-producing agricultural products has the opportunity, at least once annually, to discuss with the Board its policy and procedures;

b. Keep minutes of its meetings and other books and records which will clearly reflect all of the acts and transactions of the Board and to make these records available for examination upon request by members of the public;

c. Authorize and approve the Department of Agriculture’s (NDA) expenditure of funds collected pursuant to section 53-304;
d. Serve as an advisory panel to the Nebraska Liquor Control Commission in all matters pertaining to the wine industry; and

e. Adopt and promulgate rules and regulations to carry out sections 53-301 to 53-305.

BOARD GOALS

Premium Quality Grapes and Wines. Nebraska’s growing conditions vary greatly from the eastern to the western part of the state, and, to a lesser extent, from north to south. In the east, the elevation is less than 1,000 feet above sea level, annual precipitation may exceed 35 inches and winter lows normally do not exceed -15°F. In the western part of Nebraska, elevations exceed 5,200 feet, annual precipitation can be as low as 12 inches and winter lows may reach -30°F. Soil characteristics vary widely across Nebraska’s topography from sandy soils in the west to loess soils in the east.

Despite these climatic and soil extremes, vineyards across the state are producing premium quality grapes. The hardy grape varietals adaptive to Nebraska’s soils produce grapes that make great wines. This enables Nebraska the advantage to produce unique, handcrafted wines that are site-specific and will help capture compelling market attraction.

Targeting Varietals in Which Nebraska Excels. In business, success comes to those who build their reputations on unique products of consistent quality. In the same way, the great wine regions of the world are all associated with particular varieties of wine. Nebraska is no exception and is producing wines that are unlike many others in the world.

Carefully tending to its vineyards and refining its winemaking, the Nebraska wine industry is accomplishing this goal by identifying its strengths and placing its bets on the most popular and successful varieties. These include varieties such as, among the reds, Frontenac, Marechal Foch, and DeChaunac and, among the whites, Brianna, Edelweiss, Lacrosse, and Traminett. The sharing of results and experiences stemming from academic research studies, grape growers, and winemakers, the industry, as a whole, is developing a deeper understanding of the best grown practices and winemaking techniques. This will, in turn, continue the acceleration and demand of Nebraska high-quality wines. By trying new methods, tasting comparable products, and making adjustments, winemakers learn much faster and are able to create a better product than any single winery could do so alone.

Enhancing the Quality of Nebraska Wines. A concerted, focused effort on creating a sustainable grape and wine growing industry in Nebraska is of paramount importance. Quality research and enhancement is one avenue worth pursuing that will help achieve this goal. Measures implemented will be aimed at building a strong, vibrant industry that includes the production of world class wines made from world class grapes. Brand recognition is essential in any consumer business and is a key component within this
Strategic Plan. Nebraska wines would be graded against a rating system that is based on industry standards to identify the best wines in Nebraska. Exceptional wines would create awareness of the quality of Nebraska wines with consumers while promoting the best of the Nebraska wine industry. Enhancing the quality of Nebraska wines would spur investment in new vineyards with high quality wine grapes, encourage consumers to try Nebraska wines, and help consumers develop an appreciation for quality wines that are produced on Nebraska soil.

**Plant Research.** The University of Nebraska – Lincoln’s (UNL) Viticulture Program is an integral part of this industry’s success. They provide science-based research information that assists in the development of the Nebraska grape and wine industry in a sustainable and profitable manner, thus enhancing the economic viability of Nebraska communities and the state’s vibrant and burgeoning agricultural industry. Research studies address several topics pertaining to grape and wine production in Nebraska.

**Education.** Promoting the creation and discovery of new production practices will aid in this industry’s success. This goal can be achieved by funding various projects and activities through partnership with UNL’s Viticulture Program and the NWGGA. They include, but are not limited, to attendance at educational conferences, funding research projects, disseminating research findings to the public, supporting and partially funding grower field days and conferences, soliciting and funding proposals to enable industry partners to enhance programs and the industry, and serving as an active partner in the Grape and Wine Consortium, which works to develop and organize the annual Nebraska Winery and Grape Growers Forum and Tradeshow.

**Encouraging Wine Tourism.** Wine is identified with its origins and region. Wine tourism creates lasting memories, customer loyalty, and lifetime fans. These benefits aid in the rapid growth of this industry, making it easy for consumers to access and explore this industry from any of Nebraska’s major state highways.

**Increasing the Marketability, Awareness and Accessibility of Nebraska Grapes and Wines.** Nebraska wineries can encounter major challenges in terms of distribution and sales. A substantial amount of wine sales are made at the wineries, but there are a growing number of grocery stores and specialty shops that carry Nebraska wines. These stores serve as alternate sales outlets for many wineries, promoting the quality and value of the state’s wine.

The main strategic focus of grape and wine activities will be on enhancing the image of Nebraska wines through praise and acceptance. Developing brand recognition is essential in any consumer business and is also a key component within this Strategic Plan. The wine industry will continue its aggressive participation in key marketing and advertising campaigns. A strong presence domestically is key to becoming a larger global competitor.

Promotion of Nebraska’s grape and wine industry is a primary goal of the Board. The Board helps the grape and wine industry become a strong and important part of
Nebraska’s thriving economy. They stay abreast of recent legislation affecting Nebraska’s grape and wine industry, supports Nebraska Winery and Grape Growers’ Association (NWGGA) activities, and works closely with UNL to receive guidance and education based upon industry research.

Increasing the awareness and functionality of the Board is also a goal the Board hopes to achieve. Development of a NGWB web site has helped accomplish this goal. This enables the Board to establish an Internet presence, increase public awareness of Nebraska’s burgeoning grape and wine industry, describe the composition of the Board and its responsibilities, and strengthen Nebraska’s grape and wine industry by providing information relevant to the industry. It enables the Board to further the growth and economic development of the grape-growing and wine-making industry in the state of Nebraska to a maximum level as supported by the favorable soil and climatic conditions existing in Nebraska and to satisfy the market demand for grapes and wine inside and outside of Nebraska.

Creating Partnerships Within the Industry. Today, global success is won, not by firms acting alone, but by partnerships that promote joint planning, information sharing, open communication, and cooperation. A central challenge for the Nebraska wine industry is to continue cooperation and financial support to the NWGGA and UNL’s Viticulture Program, which have both been strong pillars of strength for Nebraska’s grape and wine industry. These partnerships entail balancing individual mandates with the opportunities for promotion and research.

Wineries and growers work together to ensure there are reliable supplies of premium grapes of the right varieties. The involves joint decision-making regarding planting and vineyard management as well as multi-year contracts, the sharing of risks, rewards, and access to capital. Distribution of quality wines is an important challenge and one that needs to be embraced, collectively, by all wineries and growers. This includes finding greater opportunities in marketing and research that will benefit both wineries and growers, big and small.

Maintaining Financial Viability and Revenue of the Grape and Winery Board. Crushed juice fees, grape excise taxes, and shipper license fees are the three primary sources from which the Board obtains its revenue.

Each Nebraska winery pays the Nebraska Liquor Control Commission twenty dollars for every one hundred sixty gallons of juice produced or received by its facility. Gifts, grants, or bequests may be received for the support of the Nebraska Grape and Winery Board. Funds paid pursuant to the charge imposed by section 53-304 and funds received pursuant to subsection (4) of section 53-123.15 and from gifts, grants, or bequests is remitted to the State Treasurer for credit to the Winery and Grape Producers’ Promotional Fund. For administrative purposes, the fund is located in NDA. All revenue credited to the fund pursuant to the charge imposed by this section and excise taxes collected pursuant to section 2-5603 and any funds received as gifts, grants, or bequests and credited to the fund is used by NDA, at the direction of and in
cooperation with the Board, to develop and maintain programs for the research and advancement of the growing, selling, marketing, and promotion of grapes, fruits, berries, honey, and other agricultural products and their byproducts grown and produced in Nebraska for use in the wine industry. Such expenditures may include, but are not limited to, all necessary funding for the employment of experts in the fields of viticulture and enology, as deemed necessary by the Board, and programs aimed at improving the promotion of all varieties of wines, grapes, fruits, berries, honey, and other agricultural products and their byproducts grown and produced in Nebraska for use in the wine industry.

Funds credited to the fund shall be used for no other purposes than those stated in this section and any transfers authorized pursuant to section 2-5604. Any funds not expended during a fiscal year may be maintained in the fund for distribution or expenditure during subsequent fiscal years. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Legislation approved on May 30, 2007, amended sections 53-123.15 and 53-304 of the Nebraska Revised Statutes and repealed the original sections. The act, relating to alcoholic liquor, changed the provisions relating to shippers' license fees and provided an excise tax on grapes. Within the act, terms were defined, powers and duties were assigned, and a penalty was enacted. Until April 30, 2012, shipping license fees were to be collected by the Nebraska Liquor Control Commission and remitted to the State Treasurer for credit to the Winery and Grape Producers' Promotional Fund. However, legislation approved on May 18, 2011, amended section 53-123.15, which removed the April 30, 2012, sunset date. Additionally, an excise tax of one cent per pound is levied upon all grapes sold through commercial channels in Nebraska or delivered in Nebraska. Excise taxes are also remitted to the State Treasurer for credit to the Winery and Grape Producers' Promotional Fund. The license fees and excise taxes resulted in a substantial increase in Board revenue.

The Board believes it is imperative to fund any additional projects that would be feasible to help further promote and expand Nebraska's burgeoning grape and wine industry. The Board sends out news releases seeking grant proposals from individual growers, farm wineries, organizations, industry groups or academic institutions that aim to assist in the betterment of Nebraska's grape and wine industry. Interested parties wishing to receive funds are required to submit detailed proposals to the Board. The proposals are to clearly explain how the money is to be used and how it would enhance the competitiveness of the state's grape and wine industry. The Board has developed a grant proposal process in order to provide all interested parties with an opportunity to access these funds. Grant proposal guidelines and application information is made available to the public and is available on UNL's Viticulture Program web site. Information can also be obtained by contacting NDA or the Board Chair. Distribution of the Request for Proposal (RFP) solicits several proposals. Priority funding is given to marketing and research projects targeted at increasing the sale and production of Nebraska grapes and/or wines. Collecting and compiling final reports in a timely manner
from Board-funded projects, and evaluating the efficacy of the reports as to how they relate to the Strategic Plan is of paramount importance to the Board.

The responsibilities of the Board have increased largely due in part to the number of projects funded each year. In an effort to enhance the accountability and reporting requirements of Board-funded projects, the Board allocates money to pay the salary of a part-time clerical assistant to assist with Board duties. The Board asks NDA find an individual to fill this position each year. This individual is under the direction of the NDA.

Each year, the Board publishes an annual report, which is available to the public, free of charge. The report primarily includes meeting minutes, news releases, RFP application instructions, annual fiscal report, contracts, bylaws, and statutes.

It identifies how the grape and wine industry can maximize long-term profitable growth in the industry, reinvent consumer's total experience with Nebraska wines, and increase tourism. The
success of this plan hinges on industry partners embracing and sharing this vision and transforming the above strategies into key deliverables.

Consequently, each participant in the vision must assume responsibility, which includes assigning the resources needed to fulfill the promise that is shared by this Board. Nebraska wines are a source of passion and pride, and perhaps the most important indicator of success is positive feedback from grape growers, wineries, scientists, and wine enthusiasts. Positive feedback from consumers and the growing reputation of Nebraska wines is sure to soar the industry to new heights.

This strategic framework provides the foundation stones for achieving long-term profitable growth. This document is subject to change with new and/or additional input. Commitment will be maintained, progress will be monitored, and adjustments will be made until the objectives are reached.

THE BOARD’S COMMITMENT

The appointed leaders of the NGWB agree to the above stated principles and actions to accomplish the objective of keeping the industry strong, vibrant, and productive. The Board accepts these responsibilities and roles of proactive leaders with a common goal and vision to secure the future of the Board. Introduction

The Nebraska Grape and Winery Board was created to (a) establish a public forum whereby any producer of wine, grapes, or other wine-producing agricultural products has the opportunity, at least once annually, to discuss with the Board its policy and procedures; (b) keep minutes of its meetings and other books and records which clearly reflect all of the acts and transactions of the Board and to make these records available for examination upon request by members of the public; (c) authorize and approve the Department of Agriculture’s expenditure of funds collected pursuant to §53-304; (d) serve as an advisory panel to the Nebraska Liquor Control Commission in all matters pertaining to the wine industry; and (e) adopt and promulgate rules and regulations to carry out §§53-30 to 53-305 of the Nebraska Grape and Winery Board Statute.

The Nebraska Grape and Winery Board’s revenue originates from a variety of different sources, which primarily include shipper license fees, grape excise taxes, and crushed grape fees. The Nebraska Grape and Winery Board has the power to utilize their revenue to fund projects that are designed to improve and promote Nebraska’s grape and wine industry. The Board is seeking to fund proposals that will aid in the betterment of Nebraska’s grape and wine industry.

Interested parties wishing to receive funds must submit a detailed proposal for review and approval by the Nebraska Grape and Winery Board. Proposals must clearly explain how the money will be used, and how it will enhance the competitiveness of Nebraska’s grape and wine industry. This RFP is for the next fiscal year, July 1, 2014 – June 30, 2015. All projects approved must be completed by the end of the next fiscal year.

The Board has developed this grant proposal process in order to provide all interested parties an opportunity to access these funds. The Board’s goal is to fund meaningful projects that will have the highest likelihood of significant, positive impact on the grape and wine production in Nebraska.

Funding Cap

The maximum grant award will be $50,000. The Board reserves the right to consider larger requests for projects with exceptional merit.

Grant Eligibility

Proposals should be initiated by individual growers, farm wineries, organizations, industry groups or academic institutions, or should involve collaboration or partnerships between producers, industry groups, academics, or other organizations. Projects must benefit the entire grape and/or wine industry and not a particular business venture. Applicants may cooperate with any public or private organization involving agricultural development, research, and/or marketing to enhance Nebraska’s grape and wine industry. If two or more individuals or organizations propose a joint project, they
may submit one application as co-applicants. Applicants proposing joint projects are not required to form a legal entity but must show in their application how the project potentially impacts and produces measurable outcomes for the grape and wine industry and/or the public. Any and all outcomes and records, resulting from a funded project, must be available for examination upon request by members of the public. Two – five year project proposals will be considered, subject to annual review and re-authorization.

Examples of enhancing the competitiveness of Nebraska’s grapes and wines include, but are not limited to: research, promotion, marketing, nutrition, trade enhancement, food safety, food security, education, “buy local” programs, increased consumption, increased innovation, environmental and conservation concerns, improved efficiency and reduced costs of distribution systems, product development, and developing cooperatives.

Program Policies

The Nebraska Grape and Winery Board reserves the right to:
- Reject any or all proposals received;
- Request additional information on project proposals;
- Recommend partial funding for a proposal that may be less than the full amount requested in the grant application;
- Tie the release of project funds to completion of necessary, timely progress reports.

Funding Allocation

Projects funded during this next fiscal year will be valid upon the respective party’s signature to an agreement with the Nebraska Department of Agriculture and the party incurring an obligation of funds for the project on or after July 1, 2014, and prior to June 30, 2015. Invoices shall be presented to the Department of Agriculture from which payment shall be made. A final report of the project will be provided to the Board and the Department of Agriculture. There will be no funding match requirement of applicants, although priority may be given to those projects that show in-kind and additional cash commitment to supplement the funding request. Please note that funding for projects are subject to legislative appropriations and funding being available.

Proposals will NOT fund the following expenses:
- Paying off existing debt;
- Purchase of equipment, land, or buildings;
- Business entertainment or business gifts; and
- Lobbying or political efforts.
Grant Proposal Review and Selection

Grant applications will be reviewed and decided upon by the Nebraska Grape and Winery Board with input from relative entities. The Nebraska Grape and Winery Board will make the final decision.

Questions and Scoring Criteria

There will be 100 points possible, which is outlined below.

Application Instructions

All applications should include the information listed on pages 4 through 6.

A. **Cover Page**

1. Name of applicant whose name should be used on all correspondence. Include contact information (address, phone, e-mail, and, if available, fax) for one individual. This person should also be the one who will appear on a grant agreement and who will be responsible for tracking and accounting for project funds and ensuring the completion of the project.

2. Abstract of 200 words or less for the proposed project.

3. Listing of all other individuals, entities, organizations, or businesses involved with the project.

B. **Project Purpose (5 points)**

In one or two paragraphs, clearly state the specific issue, problem, interest, or need to be addressed. Explain why your project is important and timely. Indicate the amount of time needed to complete the project. The project must benefit the entire grape and/or wine industry and not a particular business venture.

C. **Potential Impact (10 points)**

In one page or less, discuss the number of people or operations affected, the intended beneficiaries of the project, and/or potential economic impact, if data from the project are available.

D. **Goals (5 points)**

Describe the overall goal(s) of the project in one or two sentences.
E. Work Plan (45 points)

On three pages or less, describe your proposal and its expected benefit to the Nebraska grape and wine industry. Explain how each goal and measurable outcome will be accomplished. The measurable outcomes must list the elements that will be monitored or evaluated, by whom, how often and for how long. Expected measurable outcomes may be long term and exceed the grant period. If so, provide a time frame when long-term outcome measures will be achieved.

The major considerations here are:

- Does the project benefit the entire grape and/or wine industry and not a particular business venture?
- Can project benefits be measured, reported, and tracked over time?
- Does the project provide an overall economic benefit to Nebraska’s grape and wine industry?
- Does the project make good business sense, and does it have a high likelihood of success?
- Are the expected benefits of the proposal commensurate with total investment?

Other considerations will be given to:

- Does the project contribute to a positive image of Nebraska grape and wine products?
- Does the project provide educational benefits to the public about Nebraska grape and wine products?

F. Project Commitment (10 points)

On one page or less, describe the partnerships, alliances, networks, or other collaborative efforts that will be created to implement this project. List all parties involved and describe what each contributes in skills and abilities to make this proposal succeed and work toward the goals and outcomes, as well as the commitments for each party (in-kind, monetary, labor, etc.).

Major consideration will be given to whether:

- The project involves collaboration and enables the grape and wine industry to achieve collective results that benefits the entire industry, not a particular business venture;
- The applicant demonstrates commitment by way of in-kind time, resources, or other means.
G. **Financial Feasibility (25 points)**

This question requires a one page or less narrative and a one page or less standard budget outline. How do you intend to use the grant funds? Provide a breakdown of the components of the proposal and where the grant funds fit into the overall project financing. Prioritize funding needs, if possible. Provide budget estimates for the total project cost. List the source and amount of funds to use for the project. This information will provide assurance that you will have sufficient resources to meet project goals. Page 6 provides a budget example from which to refer to and use when creating your budget.

Major consideration will be given to whether:

- *The project makes good business sense according to the proposed expenses and activities noted in the budget;*
- *The budget supports the anticipated benefits and whether the benefits are commensurate with the total project financing;*
- *The project coordinating entity has a process in place to track and account for grant fund expenditures;*
- *Budget line item expenses could include costs associated with personnel, travel, equipment, supplies, and/or contracted work; and*
- *Accounting and project records can be readily retrieved and reported.*

Old Business

Nebraska Winery and Grape Growers’ Association (NWGGA) Project Updates
NWGGA’s Executive Director, Jennifer Montgomery, was present to report to the Board. She submitted the following reports:

**NWGGA Wine Quality Assurance Program**

Expenditure of these funds is contingent on the availability of Dr. Stephen Menke, CSU State Enologist. Max McFarland has taken a lead in getting this next step set up.

**NWGGA Educational Program**

The funding will be split equally between educational programs to benefit growers and educational programs to benefit wineries. The programs will be dependent, in part, on who will speak at the annual wine and grape forum in February 2014. Additionally, program ideas will be vetted at the NWGGA Growers Council and Winery Council meetings at the annual forum to help determine the most relevant use of this funding.

**NWGGA Exec. Director 2012-2013**

This grant is being utilized by the NWGGA to fund the salary and benefits of the association's full-time Executive Director. As per the agreement, the Executive Director has been implementing the goals and objectives of the NWGGA strategic plan including but not limited to:

- acting as NWGGA media spokesperson;
- overseeing marketing and rebranding efforts;
- working with an event planner to set up logistics for the statewide wine festival;
- outreach to other commodity groups and associations;
- working with NWGGA lobbyist to monitor legislation;
- providing administrative support for the association;
- handling winery buck redemptions for the Passport program;
- speaking at public events and conferences.

The current agreed upon package under which the Executive Director was hired in December, 2012, included $54,000 in annual salary and $6,000 in annual benefits through the duration of the contract of hire which extends through December, 2013. The NWGGA is drawing up a contract to retain the current Executive Director for the timeframe of December, 2013 through December, 2014, and therefore requests that the current salary and benefits funding be continued through that contract period.
NWGGA Marketing Program

The NWGGA Marketing Program grant includes four components, all of which are currently being utilized:

1. Passport Program (2013-14) - $8,000 – The 2012-13 Passport Program costs were $3,122.94 for printing 30,000 brochures; $1,630 for postage; and $4,915 for winery buck redemption as of June 30, 2013. The Passport Program continues to be a successful marketing tool and will be restructured, rebranded and continued into 2014.

2. General Marketing Program - $3,000 – The NWGGA is partnering with the Nebraska Wine & Grape Board for ad placement in the 2014 issue of “Agriculture and You” magazine. The NWGGA has signed a contract with the publisher and will be paying half of the total cost - $2,838.

3. Website Improvements - $700 – The NWGGA is in the final stages of implementing a grower’s forum on the website which we hope to roll out at the Growers Council meeting at the annual forum. We have also reworked the opening page on the website, adding more emphasis on Nebraska’s grapes and award-winning wines. The next step is to add functionality which will provide automated notices regarding membership status, renewal and expiration that the Executive Director can easily monitor. All of these efforts are requiring more time spent on the part of our current website manager/designer and it is anticipated that the additional $700 will be spent in overage of our current contract.

4. Booth - $2,500 – The NWGGA is undergoing a rebranding effort and therefore will not spend the bulk of this funding until a new logo and tagline is agreed upon. But the NWGGA did spend $271.90 to get a table drape produced with our current seal/logo so that we may have something to use for conferences and events that occur prior to the completion of the rebranding.

NWGGA Grape Growers Survey

Grape grower surveys from several other states were collected and a comprehensive survey for the Nebraska industry was crafted. The new survey takes into account information in those other states’ surveys as well as grower information inquiries from USDA. The subcommittee of Max McFarland, Bart Holmquist and Jennifer Montgomery now have the survey finished and a draft letter to the growers in hand. Final determinations need to be made on what grower list will be used to send the survey, how long should growers be given to fill out the survey and return, and what the method of sending the survey and accompanying letter will be.

SUPPLEMENTAL INFORMATION
Marketing
As the NWGGA was advised that the $30,000 allocated by the NWGB for the defunct Nebraska Life project may still be used by the NWGGA for other projects, the association is using that funding for a comprehensive marketing and rebranding plan. The NWGGA has signed a contract with SCORR Marketing in Kearney, NE to develop a Promotional Platform, Logo & Tagline, Marketing Plan, overhaul the Passport Brochure; and conduct industry assessments of the Nebraska wine and grape industry. The cost estimate for the entire project is $25,883.

State Wine Festival

The NWGGA continues plans to host a statewide Nebraska wine festival, May 3-4, at Mahoney State Park. The association is working with and finalizing the contract with event planner Blur Parties, Lincoln, NE. The NWGGA has signed the site contract with Mahoney State Park in the amount of $3,807. Thirteen wineries have signed up to participate in “Toast Nebraska – A Wine Experience.”

University of Nebraska – Viticulture Program Project Updates

Dr. Paul Read gave an in-depth report.

**General Research Progress:**

1. Research Technologist, Stephen Gamet has continued to provide exemplary service in maintaining the UNVP research vineyards, conducting research trials, providing hands-on training for students and new growers, acquiring data and assisting in evaluation of results. He also provides technical support for presentations, teaching and outreach activities. His support enables the UNVP leader to publish research papers, make presentations and disseminate research results emanating from the University of Nebraska Viticulture Program.

2. Studies continue on the herbicide drift problem. Data have been acquired on genotype differences in response to herbicide drift events and reported at National and regional meetings (American Society for Horticultural Science [ASHS]; American Society of Enology and Viticulture, Eastern Section; NE-1020). Paul Read attended the Dow AgroSciences Information Exchange Meeting focused on their “Enlist Weed Control System”. Jennifer Montgomery also attended.

3. Cultivar evaluation continues with a renewed emphasis on Norton, Bianca, Marquette and newer cultivars and genotypes, including Petite Pearl, Frontenac Blanc and MN numbered selections (see report to Northern Grapes Project).

4. Northern Grapes Project and NE-1020 Project. NE-1020 results have been hampered by herbicide drift, but differing tolerance levels of herbicide
resistance have been evaluated. MN 1258 and MN1220 appear to be productive and somewhat tolerant of herbicide drift, as are Seyval Blanc, Vidal Blanc and Chambourcin. Also see again Northern Grapes Project reports.

5. Stability of Frontenac Sports studies. Following the recent departure of Donna Morrison to Guyana, the responsibilities for pursuit of these studies have been assumed by Christina Bavougian and Ben Loseke. A fortunate coincidence has been the addition of a UCARE student, Jason Thomas, who is supported entirely by the UARE program at UNL. In vitro propagation has been successfully accomplished and anatomical studies have been begun. It is anticipated that preliminary results will be reported at a future meeting of the Board.

6. Cold-hardiness, Growing Degree Studies and Mulch and Ground Cover Studies have been ongoing and will be summarized at the 17th Forum in Kearney. Preliminary results of several studies will be disseminated through the Nebraska VineLines electronic newsletter.

Outreach activities:

1. Field Days and workshops have been presented. See Northern Grapes Project reports for details. Feedback has been highly favorable.

2. NE-1020 Annual meeting hosted. The NE-1020 research group met at the Lied Lodge and Conference Center November 7, 2013. Attendance included grape and wine specialists from states across the upper part of the contiguous United States. Experimental wines are now being produced following the common protocols for viticulture and enology. Of special interest is the agreed-upon potential for MN 1258.

3. Fall Viticulture and Enology Workshop – November 9, 2013, Lincoln, NE. Dr. Horst Caspari and Dr. Stephen Menke, Colorado State University were featured speakers.

4. See also the Northern Grapes Project reports.

5. Plans are underway for the 17th Annual Nebraska Winery and Grape Grower Forum and Trade Show which will take place on February 27-March 1 at the Kearney Holiday Inn. Mechanization is a major theme for the viticulture part of the program and will feature Dr. R. Keith Striegler as the Keynote speaker. Following the Dow AgroSciences information meeting, a speaker from Dow has been invited to make a presentation at the Forum.

6. 18th Annual Nebraska Winery and Grape Growers Forum and Trade Show. Discussions are underway with potential Eastern Nebraska sites to be
considered for the venue for the meeting in 2015. It is felt that moving the location to an Omaha area location as a “trial balloon” may attract more attendees from surrounding states, especially Iowa. It also may help attract more vendors, since it is easier to bring their wares to a larger airport (Eppley).

**Funding:**

1. Assistance for enhancing the Forum’s potential success by infusion of funds from the Nebraska Grape and Wine Board is proposed. If the NGWB provides supplemental funding, the cost to individual attendees will not need to be increased and will enable organizers to afford and attract more qualified speakers. Ultimately, this should make the Forum more attractive to persons considering participation.

2. If interim funds are available, it is requested that the Board consider supplementing the current lab technician’s half-time salary and benefits (incumbent, Ben Loseke).

**Mac’s Creek Winery and Vineyards**

Max McFarland gave a detailed report of the research projects they are currently conducting at Mac's Creek Winery and Vineyards. Below is a summary of their findings.

1. **Ozone Application – Vineyards @ Mac’s Creek:**
   Data have been collected on all cultivars (Marechal Foch, Edelweiss, Brianna, deChaunac). Data are now being analyzed. Preliminary results suggest positive effect on disease control (Downy Mildew) with ozone application.

2. **Ozone Application – Vineyards @ James Arthur Vineyards:**
   Data have been collected on all cultivars (Edelweiss, Vignoles and Lacrosse). Data are now being analyzed. Preliminary results suggest inconclusive effect (on Vignoles and Lacrosse) on disease control (primarily Black Rot) with ozone application. Results suggest positive effect on disease control on Edelweiss.

3. **Ozone Application – Orchards @ Mac’s Creek:**
   Data have been collected on all cultivars (Crab Apple and Bartlett Pear). Data are now being analyzed. Preliminary results suggest positive effect on disease control on both cultivars with ozone application.

Other

Board Chair, Max McFarland, reported to the Board regarding his recent trip to attend the Annual Fall meeting of Wine America. The three day meeting was held at Geneva On the Lake, Ohio, November 4-6. McFarland has served as the Nebraska representative on the State Association Council (a committee of Wine America) for the past two years (having been appointed by the NWGGA). The main order of business of the SAC meeting included states reporting on issues/concerns/status of the industry in each state. Additionally, the SAC created a proposal to create the Wine America State and Regional Associations Advisory Council (SRAAC) as an advisory body comprised of state and regional winery and winegrowers associations. The SRAAC will provide an invaluable forum for communication and grassroots action on issues of concern to the wine industry.

Days two and three of the annual meeting focused on Wine America Board of Directors meetings. The Board of Directors approved the proposal to create the SRAAC which had been submitted by SAC. In other business, the Board took action to appoint McFarland to fill the position of Midwest Region representative on the Board which was vacated by Thomas Held (Stone Hill Winery, Missouri). McFarland will complete Held’s term which extends through 2015.

McFarland also reported that due to his appointment to Wine America’s Board of Directors, he will be resigning his position as Nebraska representative to the SRAAC.

Nebraska Winery and Grape Growers’ Association (NWGGA) Project Updates

NWGGA’s Executive Director, Jennifer Montgomery, was present to report to the Board. She submitted the following reports

NWGGA Wine Quality Assurance Program

Dr. Stephen Menke, the state enologist at Colorado State University, conducted two training workshops on Nebraska Wine Quality Sensory Faults at the University of Nebraska:
- Session I, December 16-17, 2013
- Session II, December 18-19, 2013

NWGGA Educational Program

The funding will be split equally between educational programs to benefit growers and educational programs to benefit wineries. The NWGGA Board of Directors has come up with an updated list of relevant and timely educational programs and/or workshops on topics including, but no limited to, sustainability; yeast breeding; food and wine pairings through partnerships with local culinary schools and university food science/food chemistry programs

Update: These funds have not yet been expended and the NWGGA has requested to roll over this spending authorization to FY 2014-2015.

NWGGA Exec. Director 2012-2013

This grant is being utilized by the NWGGA to fund the salary and benefits of the association’s full-time Executive Director. The Executive Director continues to advance the goals of the NWGGA strategic plan by:

- acting as NWGGA media spokesperson;
- overseeing marketing and rebranding efforts;
• working with an event planner to set up logistics for the statewide wine festival;
• outreach to other commodity groups and associations;
• working with NWGGA lobbyist to monitor legislation;
• providing administrative support for the association;
• handling winery buck redemptions for the Passport program;
• speaking at public events and conferences.

The current agreed upon package under which the Executive Director was hired in December, 2012, included $54,000 in annual salary and $6,000 in annual benefits through June 30, 2014.

Updated: Given that the Executive Director has met and/or exceeded the goals set forth by the NWGGA Board of Directors and the NWGGA Strategic Plan, the NWGGA has submitted a grant proposal for an Executive Director compensation package that includes a 5% cost of living salary increase and funds to add dental insurance benefits.

**NWGGA Marketing Program**

The NWGGA Marketing Program grant includes four components, all of which are currently being utilized:

1. Passport Program (2013-14) - $8,000 – The 2012-13 Passport Program costs were $3,122.94 for printing 30,000 brochures; $1,630 for postage; and $4,915 for winery buck redemption as of June 30, 2013. The 2013-2014 Passport brochure recently was redesigned and brought in line with the current rebranding efforts of the NWGGA. Expenditures for the current Passport program are continuing through June 30, 2014.

2. General Marketing Program - $3,000 – The NWGGA is partnering with the Nebraska Wine & Grape Board for ad placement in the 2014 issue of “Agriculture and You” magazine. The NWGGA has signed a contract with the publisher and will be paying half of the total cost $2,906.

3. Website Improvements - $700 – The NWGGA worked with the website manager Bolero, to design a growers’ forum on the website. After addressing some snags during the initial roll-out, the NWGGA is now ready to open the forum for NWGGA member use. An announcement and invitation will be going out to the NWGGA membership in the very near future. Contrary to the original estimate, this work was done without an expenditure overage on the current contract. The current annual contract with Bolero is $840 for hosting and routine maintenance.

4. Booth - $2,500 – The NWGGA is undergoing a rebranding effort, and as part of the new marketing platform development undertaken by SCORR Marketing, new banners were designed to serve as promotional material for all functions where the NWGGA has a booth. These banners incorporate the new brand and provide an image that can be expanded upon as needs change- $2460.31.
NWGGA Grape Growers Survey

Grape grower surveys from several other states were collected and a comprehensive survey for the Nebraska industry was crafted. The new survey takes into account information in those other states’ surveys as well as grower information inquiries from USDA. The subcommittees of Max McFarland, Bart Holmquist and Jennifer Montgomery now have the survey finished and a draft letter to the growers in hand. Final determinations need to be made on what grower list will be used to send the survey, how long should growers be given to fill out the survey and return, and what the method of sending the survey and accompanying letter will be.

Update: The growers’ survey has not yet been disseminated. A new target launch date will need to be set based on seasonal grower availability.

SUPPLEMENTAL INFORMATION

Marketing

As the NWGGA was advised that the $30,000 allocated by the NWGB for the defunct Nebraska Life project may still be used by the NWGGA for other projects, the association is using that funding for a comprehensive marketing and rebranding plan. The NWGGA has signed a contract with SCORR Marketing in Kearney, NE to develop a Promotional Platform, Logo & Tagline, Marketing Plan, overhaul the Passport Brochure; and conduct industry assessments of the Nebraska wine and grape industry. The cost estimate for the entire project is $31,222.00. Total billed as of 3/15/14 = $32,252.36

State Wine Festival

The NWGGA, in partnership with Blur Parties, hosted a statewide Nebraska wine festival, May 3-4, at Mahoney State Park. Seventeen NWGGA member wineries participated and an estimated 1700 people attended the event. Expenditures and revenues are still being determined.

University of Nebraska - Viticulture Program Project Updates

Presented by Steve Gamet & Ben Loseke.

NE-1020 and Northern Grapes Projects

1. The major plantings suffered extreme damage from herbicide drift.

2. Crop yield was reduced and significant differences in degree of injury among cultivars and numbered selections were rated. Results were included in the Nebraska Vine Lines, and presented at the Annual Forum and Trade Show in
Kearney in 2013 and at the Annual Conference of the American Society for Horticultural Science (July, 2013).

3. Numbered selections from the University of Minnesota breeding program exhibiting promise include MN 1220 and MN 1235, were also reported at the NE-1020 annual Conference in Nebraska City.

4. Vertebrate pests were effectively controlled by netting (birds), but some depredation resulted from raccoon foraging.

Comparisons of Trellis Systems and Components

1. Frontenac and Marquette are recommended to be trained to a Geneva Double Curtain or High Cordon system. Yields have been consistently higher than VSP with no diminution of fruit quality.

2. Commercial steel vineyard posts appear to be adequate, although the posts that were installed at a commercial vineyard have exhibited some bending.

3. Duraline trellis “wire” was difficult to work with, especially to tighten it effectively.

Mulch and Ground Cover Studies

1. Distillers grains gave almost 100% weed control in 2011, but less suppression in subsequent years.

2. Crushed glass provided excellent weed control in years 1 and 2, but some grassy weeds pushed through the mulch in the third year.

3. There were notable differences in soil moisture retention in both mulch systems when compared to the glyphosate control and the ground cover treatments.

4. Measurements of plant moisture content indicated benefits of the mulch treatments.

5. Pruning weights were not significantly different among treatments.

6. Creeping Red Fescue and native vegetation were among the best treatments.

7. Conclusions and recommendations emanating from her work on Vineyard Floor Management can be gleaned from Christina Bavougian’s PhD Dissertation.
8. Expanded research in 2014 will employ combinations of species for ground covers in collaboration with a commercial vineyard and Stock Seed Farms, with consultation by Dr. Chuck Francis, UNL Sustainable Farming Specialist.

Bud Break Delay using Vegetable Oil and NAA

1. In contrast to previous years’ research, NAA was less effective in bud break delay than Amigo Oil.

2. Three applications of Amigo Oil delayed bud break from 5 to 11 days.

3. Delaying bud break by Amigo Oil and NAA treatments had no negative effects on fruit characteristics.

4. In forcing solution studies, NAA was more effective than when applied in the field. It is hypothesized that this difference is attributed to a “weathering” effect.

5. Future studies should consider use of a spreader/sticker when applying NAA, or perhaps combining Amigo Oil and NAA to take advantage of their perceived individual effects.

6. A summary of results on bud break can be found in Ben Loseke’s M.S. thesis.

Ozone Treatments in the Vineyard

The UNVP is cooperating with James Arthur Vineyards, Macs Creek Vineyards and the Ozein Company to evaluate the relative utility of ozone sprays in the vineyard. Experiments were initiated at James Arthur Vineyards following promising results obtained by Mac’s Creek Vineyards during the 2012 growing season.

Educational Programming
Field Days.

A field day focusing on ground covers, mulches and vineyard floor management was held at Fox Run Farms, Brainard, NE on May 11, 2013. Featured were Christina Bavougian’s ground cover and mulch studies, a weed I.D. “walk-around” led by Lowell Sandell, UNL Weed Specialist, and an overview of Fox Run Farms’ CSA and organic approaches by Yolanda Bailey, co-owner. A second Field Day was held at the Kimmel Orchard site, with discussions centered on Crop Estimation, Vine Balance, Cultivar Performance and herbicide drift problems. Two Field Days are in the planning stages for summer 2014.
Workshops

The Fall 2013 Workshop held in Lincoln featured Drs. Horst Caspari and Stephen Menke, Colorado State University Viticulturist and Enologist, respectively. A fall 2014 workshop is in the planning process, date and location TBA.

17th and 18th Annual Winery and Grape Growers Forum and Trade Show

The 17th conference was held at the Kearney Holiday Inn for the last time. Details of presentations can be found on the UNVP web site Http://agronomy.unl.edu/viticulture. Plans are under way for the 18th Annual conference to be held March 5-7, 2015 at the Omaha Marriott. One keynote speaker has committed to participate and others are considering participation. Advice of the NWGGA has been considered and suggestions are welcome.

The Nebraska VineLines has been converted to an email system. Individuals wishing to be added to the list or wishing to receive a hard copy can do so by sending a request to Kathy Schindler (kschindler1@unl.edu, 402-472-1508).

Teaching at UNL

Students continue to be enthusiastic about HORT/NUTR 471/871, “Vines, Wines and You”. Registration reaches its limit on the first day of registration. NWGGA assistance is appreciated, as well as the assistance of John Barker (The Still), the Country Club of Lincoln and UNL Professor Ian Newman. Student numbers have continued to increase in HORT 352, Physiology of Horticultural Crops; HORT 353, Vegetable Crops Laboratory and HORT 354, Fruit Crops Laboratory.

Mac’s Creek Winery and Vineyards

Max McFarland gave an update on research projects they are currently conducting at Mac’s Creek Winery and Vineyards. Two research projects are underway:

1. Mac’s Creek Amigo Oil Study (Delaying bud break) – Orchard. All treatment and data collection is in progress. Data entry and analysis will begin soon.

2. Mac’s Creek Amigo Oil Study (Delaying bud break) – Vineyard. All treatment has been applied and data collection is in progress. Bud break is just beginning to occur. Data entry and analysis will begin soon.

Board Chair, Max McFarland, reported to the Board regarding his recent trip to attend the Annual Fall meeting of Wine America. The three day meeting was held at Geneva On the Lake, Ohio, November 4-6, 2013. McFarland has served as the Nebraska representative on the State Association Council (a committee of Wine America) for the
past two years (having been appointed by the NWGGA). The main order of business of the SAC meeting included states reporting on issues/concerns/status of the industry in each state. Additionally, the SAC created a proposal to create the Wine America State and Regional Associations Advisory Council (SRAAC) as an advisory body comprised of state and regional winery and winegrowers associations. The SRAAC will provide an invaluable forum for communication and grassroots action on issues of concern to the wine industry.

Days two and three of the annual meeting focused on Wine America Board of Directors meetings. The Board of Directors approved the proposal to create the SRAAC which had been submitted by SAC. In other business, the Board took action to appoint McFarland to fill the position of Midwest Region representative on the Board which was vacated by Thomas Held (Stone Hill Winery, Missouri). McFarland will complete Held’s term which extends through 2015.

Max submitted his meeting expense report of $1160.93.

Motion was made by Dave to approve the expenses as he was representing the industry as a whole and designate it under “Board Expense”. Terry second the motion. Motion carried.

Dave made a motion to approve $1800.00 for Max to attend the Wine America Board of Directors Conference in Washington D.C., Ellen second the motion. Motion passed.

AGREEMENT

between

NEBRASKA GRAPE AND WINERY BOARD

and

RUTH ANDERSON

#18-13-179

This Agreement, entered into by and between the Nebraska Grape and Winery Board, hereinafter called the “Board,” provides for funding from the Winery and Grape Producers’ Promotional Fund to contract with Ruth Anderson, hereinafter called the “Independent Contractor,” as the Nebraska Grape and Winery Board Services Contractor.

WHEREAS, the Nebraska Grape and Winery Board was created to:

1. Establish a public forum whereby any producer of wine, grapes, or other wine-producing agricultural products has the opportunity, at least once, annually, to discuss with the Board its policy and procedures;

2. Keep minutes of its meetings and other books and records which clearly reflect all of the acts and transactions of the Board and to make these records available for examination upon request by members of the public;

3. Authorize and approve the Nebraska Department of Agriculture’s (NDA) expenditure of funds collected pursuant to §53-304;

4. Serve as an advisory panel to the Nebraska Liquor Control Commission in all matters pertaining to the wine industry; and

5. Adopt and promulgate rules and regulations to carry out §§53-301 to 53-305 of the Nebraska Grape and Winery Board Statute.

WHEREAS, for administrative purposes, Board funds are located in NDA and defined as the Winery and Grape Producers’ Promotional Fund;

WHEREAS, all revenue credited to this fund is used by NDA at the direction of and in cooperation with the Board to develop and maintain programs for the research and advancement of the growing, selling, marketing, and promotion of grapes, fruits, berries, honey, and other agricultural products and their byproducts grown and produced in Nebraska for use in the wine industry; and
WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed NDA to prepare a contract with an Independent Contractor to further enhance and maintain the clerical responsibilities of the Board.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties that the Board approves funds to hire an Independent Contractor to perform the work and adhere to the guidelines listed in this Agreement.

After the Agreement begins, it is understood that, if additional costs should be incurred or the total yearly value needs to increase, with the mutual written consent of all parties tied to the Agreement and provided resources are available, the Agreement may be amended.

The compensation package for this position will be used to pay for work performed, office supplies, communication equipment, travel costs, and other incidental expenses directly associated with the this position.
Payment in the amount of up to five thousand dollars ($5,000) from the Winery and Grape Producers’ Promotional Fund to the Independent Contractor will be payable, in full, by June 30, 2014, upon both parties signature to this Agreement and the Independent Contractor incurring an obligation. On a monthly basis, the Independent Contractor shall present invoices (not to exceed four hundred twenty-five dollars ($425)) and progress reports outlining the Independent Contractor’s activities to NDA from which payments shall be made. Funding for this position is subject to legislative appropriations and funding being available. Any unused funds shall be refunded to NDA and credited back to the Winery and Grape Producers’ Promotional Fund, unless otherwise agreed. Furthermore, if the Independent Contractor fails to perform as outlined herein, the Independent Contractor shall be required to repay any unearned funds received under this Agreement.

INDEMNIFICATION

The Independent Contractor shall defend, indemnify, hold harmless, and insure the Board from any and all claims and liabilities including costs and legal fees that may arise out of, or on account of, any failure on the part of the Independent Contractor to perform such duties for the Board, as herein specified. This obligation shall survive the expiration or termination of this Agreement.

RECORD KEEPING

The books of account, files, and other records of the Independent Contractor, which are applicable to this Agreement, shall be available for inspection, review, and audit by NDA and the Board to determine the proper application and use of all funds paid to and for the account or benefit of the Independent Contractor.

The Independent Contractor agrees to maintain all books, documents, papers, or other records involving transactions related to this Agreement for a period of five (5) years. If any litigation or audit is begun or a claim is instituted involving the Agreement, the Independent Contractor shall retain the records beyond the five (5) year period until litigation, audit findings, or any claims have been fully resolved and the Board has agreed that such records no longer need to be retained.

The Independent Contractor specifically agrees that funds given to him or her shall be used only for the projects and purposes enumerated herein, and further acknowledges that expenditures shall not be used for political activity.

LEGAL COMPLIANCE

The Independent Contractor shall not:

1. Discriminate against recipients of services on the basis of race, color, religion, national origin, sex, disability, or age; and
2. Discriminate against any employee or applicant for employment on the basis of race, color, religion, national origin, sex, age, or qualified disability.

It is further understood and agreed that, if the Independent Contractor is in violation of this clause, it shall be barred forthwith from receiving further funds, unless a satisfactory showing is made indicating discriminatory practices have terminated and a recurrence of such act or action is unlikely.

All provisions of this Agreement are subject to the Americans with Disabilities Act.

1. A statement notifying employees that the unlawful manufacture, distribution, possession, or use of a controlled substance is prohibited in the Independent Contractor’s workplace;

2. The specific actions that will be taken against employees for violating the policy; and

3. A requirement that each employee shall receive a copy of the policy.

TERMINATION

Upon termination by either party, the Independent Contractor shall provide to NDA any and all copies, in whole or in part, of the work (as they exist) and any and all tangible
materials the Board and/or NDA provided to the Independent Contractor in connection with this Agreement.

This Agreement is not assignable without the express written approval of the Board and becomes valid upon the date of the final signature.

AGREEMENT
between
NEBRASKA WINERY AND GRAPE GROWERS’ ASSOCIATION
and
NEBRASKA DEPARTMENT OF AGRICULTURE
#18-13-228

This Agreement, entered into by and between the Nebraska Winery and Grape Growers’ Association, hereinafter called the “NWGGA,” and the Nebraska Department of Agriculture, hereinafter called the “Department,” provides for the funding from the Nebraska Grape and Winery Board to NWGGA to continue the development of a statewide Wine Quality Assurance Program to assist in the betterment of Nebraska’s grape and wine industry.

WHEREAS, it has been proven that high-quality wine grapes and wines can be produced in Nebraska;

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed the Department to provide funds to NWGGA;

WHEREAS, the promotional activities conducted by NWGGA will greatly assist the Nebraska grape and winery industry; and

WHEREAS, both parties hereto desire to enter into this Agreement in order to further promote Nebraska’s grape and wine industry.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties hereto that:

1. The Nebraska Grape and Winery Board approved up to twenty-four thousand five hundred ten dollars ($24,510) from the Winery and Grape Producers’ Promotional Fund to pay for activities that will continue in the development of a statewide Wine Quality Assurance Program. The activities will be multi-faceted, administered by a consultant, and developed in consultation with NWGGA member wineries.
Below are the three major components of this project:

a. Sensory/Hedonistic Panel Evaluation

b. Educational Follow-Up

c. Chemical Analyses of Wines

The NWGGA will work with an enologist, who will serve as the project consultant. The first step will involve assembly of a Wine Sensory Quality Assurance Panel. Nebraska wineries will be able to submit wines for evaluation. Wines will be evaluated in a laboratory by trained panelists from a Hedonistic Panel (smell and taste) and from a Quantitative Faults Panel (smell only). Once completed, the scores will be tabulated and combined to provide an aggregate overview of the quality of Nebraska’s commercial wines. The intent is to identify any flaws associated with each variety so that corrections can be made to improve the quality of Nebraska wines.

The second step will involve an educational workshop for Nebraska winemakers. This will be a one or two day seminar that will serve as a follow-up to the wine evaluations. It will provide resources to assist wineries in addressing problems that are resulting in wine flaws. It is anticipated that the information provided at the workshop will be used to make adjustments or corrections to wine productions, if necessary.

The third step involves a chemical analysis of Nebraska wines in a laboratory. Chemical tests will be run to identify acidity, bacteria, glucose, fructose, and other ingredients that are included in bottled wines.

The goals of this project are to:

a. Ascertain if testing wine quality both before and after bottling will result in greater quality integrity of wines and greater acceptance of consumer sensory parameters;

b. Achieve participation in this project by at least 50 percent of wineries in Nebraska; and

c. Achieve an increase in number of wines that have higher consumer evaluation scores when testing is done both before and after bottling, as compared to only post-bottling testing.

2. **Duration of Agreement.** This Agreement shall be in force and effective from July 1, 2013, to June 30, 2014.
3. The Department agrees to provide the funds, as set out in Paragraph 1, from the Winery and Grape Producers Promotional Fund. Payment will be payable, in full, upon both parties signing this Agreement and NWGGA incurring an obligation. NWGGA shall present invoices to the Department from which payments shall be made.

4. NWGGA shall provide a written final report to the Department by June 30, 2014. The report, which shall describe the results of the project and the use of funds, will be made public by the Nebraska Grape and Winery Board.

5. Funding for this project is subject to legislative appropriations and funding being available. Any unused funds shall be refunded to the Department and credited back to the Winery and Grape Producers' Promotional Fund.

6. After the Agreement begins, it is understood that, if additional costs should be incurred, with the mutual written consent of all parties to this Agreement and provided resources are available, this Agreement may be amended.

7. NWGGA shall utilize funds provided by the Department to conduct the duties called for in this Agreement. Department funds collected from a checkoff fee paid by the industry are not to be used to pay administrative or indirect costs.

8. The parties mutually agree as follows:
   a. NWGGA shall:
      (1) Not discriminate against recipients of services on the basis of race, color, religion, national origin, sex, disability, or age; and
      (2) Not discriminate against any employee or applicant for employment on the basis of race, color, religion, national origin, sex, or qualified disability.

         It is further understood and agreed that, if NWGGA is in violation of this clause, it shall be barred forthwith from receiving further funds, unless a satisfactory showing is made indicating discriminatory practices have terminated and a recurrence of such act or action is unlikely.

   b. This Agreement incorporates the complete understanding of the parties. Any modification of the Agreement shall be in writing and executed by each party of the Agreement to be valid.
c. NWGGA agrees to have in force, during the Agreement period, and available for inspection, a policy regarding a drug-free workplace. The policy shall contain:

(1) A statement notifying employees that the unlawful manufacture, distribution, possession, or use of a controlled substance is prohibited in the NWGGA workplace;

(2) The specific actions that will be taken against employees for violating the policy; and

(3) A requirement that each employee shall receive a copy of the policy.

d. NWGGA shall indemnify and hold harmless the Department from any and all claims and liabilities, including costs and legal fees that may arise out of, or on account of, any failure on the part of NWGGA to perform such duties for the Department, as herein specified. This obligation shall survive the expiration or termination of this Agreement.

e. The books of account, files, and other records of NWGGA, which are applicable to this Agreement, shall be available for inspection, review, and audit by the Department and its representatives to determine the proper application and use of all funds paid to and for the account or benefit of NWGGA.

f. NWGGA agrees to maintain all books, documents, papers, or other records involving transactions related to this Agreement for a period of five (5) years. If any litigation or audit is begun or a claim is instituted involving the Agreement, NWGGA shall retain the records beyond the five (5) year period until litigation, audit findings, or any claims have been fully resolved and the Department has agreed that such records no longer need to be retained.

g. NWGGA specifically agrees that funds given to NWGGA shall be used only for the projects and purposes enumerated herein, and further acknowledges that expenditures shall not be used for political activity.

h. Any funds paid to NWGGA under this Agreement, and not fully utilized and earned pursuant to this Agreement during the Agreement period, shall be returned to the Department and credited to the Winery and Grape Producers Promotional Fund, unless otherwise agreed. Furthermore, if NWGGA fails to perform
as outlined herein, NWGGA shall be required to repay any unearned funds received under this Agreement.

i. This Agreement is not assignable without the express written approval of the Department.

j. This Agreement may be terminated by either of the parties hereto at any time by giving thirty (30) days advance written notice to the other party.

1. The Nebraska Grape and Winery Board approved up to three thousand eight hundred ninety-five dollars ($3,895) from the Winery and Grape Producers’ Promotional Fund to assist the Vineyard in using ozone technology on multiple cultivars found at JAV. This study, which is in partnership between the two vineyards, will investigate the feasibility of utilizing ozone technology to control viticulture diseases. Use of this
technology would reduce or eliminate the application of chemicals to control such diseases thereby enhancing sustainability, reducing the carbon footprint, enhancing the positive image of Nebraska’s grape and wine industry, and protecting the consumer.

Four cultivars will be selected for the study, which include Edelweiss, Vignole, deChaunac, and St. Croix. Each cultivar will be divided into four groups.

a. The Control Group will not receive spray treatment of any kind.

b. Treatment Group #1 will receive normal chemical spray, as per JAV’s usual spray program.

c. Treatment Group #2 will only receive ozone spray treatment at the same schedule as the normal chemical spray program at JAV.

d. Treatment Group #3 will receive both ozone and chemical spray treatments at alternating intervals.

Each group will be selected, by rows, in a block-style method. All vines will be managed in a manner consistent with normal growing season care for commercial vineyards prior to and during any treatment.

Specific research questions that will be addressed during this project will include:

a. Is there a difference in disease control among groups when comparing the Control Group to Treatment Group #1 to Treatment Group #2 to Treatment Group #3 across multiple cultivars?

b. Is there a difference in disease control among groups when comparing the Control Group to Treatment Group #1 to Treatment Group #2 to Treatment Group #3 within each cultivar?

Up to three thousand eight hundred ninety-five dollars ($3,895) will pay for the costs associated with this project, which include:

a. Plant Pathology Consultation;

b. Research consultant to create develop research design, coordinate data collection, train research assistant to collect data, identify sample blocks, interpret results, and create a final report;

c. Research assistant to collect and enter data on a weekly basis for statistical analysis;
d. Data analyst to analyze all data;

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed the Department to provide funds to the Vineyard to conduct an ozone research project;

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties hereto that:

1. The Nebraska Grape and Winery Board approved up to seven thousand one hundred dollars ($7,100) from the Winery and Grape Producers’ Promotional Fund to assist the Vineyard in investigating the feasibility of utilizing ozone technology to control diseases in Nebraska fruit. Use of this technology would reduce or eliminate the application of chemicals to
control such diseases, thereby enhancing sustainability, reducing the carbon footprint, enhancing the positive image of Nebraska’s agriculture, and protecting the consumer.

This project is to expand the ozone technology research from a vineyard to an orchard application, thereby applying this technology to Nebraska crabapple, pear, and peach trees. The goal is to investigate the efficacy of ozone application to control disease in a commercial orchard.

Specific research questions that will be addressed during this project which will include:

a. Is there a difference in disease control among groups when comparing the Control Group to Treatment Group #1 to Treatment Group #2 across three (3) cultivars? This question will be answered by computing averages across ratings on all trees within each of the three (3) groups across three (3) cultivars and compared weekly. Average “presence of disease” will be compared (Treatment Group #1 compared to Control Group; Treatment Group #2 compared to Control Group; and Treatment Group #1 compared to Treatment Group #2).

b. Is there a difference in disease control among groups when comparing the Control Group to Treatment Group #1 to Treatment Group #2 within each cultivar? This question will be answered by computing averages across ratings on all trees within each of the three (3) groups separately for each cultivar and compared weekly. Average “presence of disease” will be compared (Treatment Group #1, compared to Control Group; Treatment Group #2, compared to Control Group; and Treatment Group #1, compared to Treatment Group #2).

Three (3) cultivars will be selected for the study (crabapples, pears, and peaches). Each cultivar will be divided into three groups.

a. The Control Group will not receive spray treatment of any kind.

g. NWGGA specifically agrees that funds given to NWGGA shall be used only for the projects and purposes enumerated herein, and further acknowledges that expenditures shall not be used for political activity.

h. Any funds paid to NWGGA under this Agreement, and not fully utilized and earned pursuant to this Agreement, during the Agreement period, shall be returned to the Department and credited to the Winery and Grape Producers' Promotional Fund, unless otherwise agreed. Furthermore, if NWGGA fails to perform as outlined herein, NWGGA shall be required to repay any unearned funds received under this Agreement.

i. This Agreement is not assignable without the express written approval of the Department.

j. This Agreement may be terminated by either of the parties hereto at any time by giving thirty (30) days advance written notice to the other party.

k. The relationship of the Department and NWGGA, under this Agreement, shall be that of principal and independent contractor. It is understood by both the Department and NWGGA that NWGGA is not an employee of the Department. It is understood that the
Department assumes no responsibility beyond those specifically stated in this Agreement.

l. All provisions of this Agreement are subject to the Americans with Disabilities Act.

m. NWGGA guarantees payment of compensation to injured workers according to the Nebraska Workers Compensation Act.

n. NWGGA is required, and hereby agrees, to use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the state of Nebraska. A federal immigration verification system means the electronic verification of the work authorization program authorized by the Illegal Immigration Reform and Immigrant Responsibility Act of 1998, U.S.C. 1324a, known as the E-Verify Program, or an equivalent federal program designated by the United States Department of Homeland Security, or other federal agency authorized to verify the work eligibility status of a newly hired employee.

AGREEMENT

between

MAC’S CREEK VINEYARD AND WINERY

and

NEBRASKA DEPARTMENT OF AGRICULTURE

#18-13-249

This Agreement entered into by and between Mac’s Creek Vineyard and Winery, hereinafter called the “Vineyard,” and the Nebraska Department of Agriculture, hereinafter called the “Department,” provides funding from the Nebraska Grape and Winery Board to the Vineyard for research activities that are designed to assist in the betterment of Nebraska’s grape and wine industry.

WHEREAS, it has been proven that high-quality wine grapes and wines can be produced in Nebraska;

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed the Department to provide funds to the Vineyard for a study of grapevine cold hardiness;

WHEREAS, the research activities conducted by the Vineyard will greatly assist the Nebraska grape and winery industry; and

WHEREAS, both parties hereto desire to enter into this Agreement in order to further enhance Nebraska’s grape and wine industry.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties hereto that:

1. The Nebraska Grape and Winery Board approved up to five thousand one hundred dollars ($5,100) from the Winery and Grape Producers’ Promotional Fund to assist the Vineyard in paying for a cold hardiness study.

   Similar to previous years, this project will investigate the effects of applying Amigo Oil to dormant grape vines in order to delay bud break, so
considerable damage from cold temperatures can be avoided. However, minimal research, with inconclusive and equivocal results, has attempted to evaluate the number of applications necessary to maximize these results.

The first pilot study conducted a few years ago indicated that a 14-day delay can be attained with two applications while no significant delay resulted from a single application. While these results are valid, the unusual weather conditions of the winter and spring seasons have made it impossible to determine whether these results can be replicated and expected in future years. Therefore, this project will begin the second year of investigating the effects of single versus multiple applications of the Amigo Oil to grape vines. The results from this study could make it possible for grape growers to significantly increase profitability without having to increase the number of acres planted. Specific research questions that will be addressed during this project will include:

a. Is there a difference in the extent of bud delay when comparing single versus multiple applications across five cultivars in a commercial vineyard application?

b. Is there a difference in the extent of bud delay when comparing single versus multiple applications within each of the five cultivars investigated (i.e., Marechal Foch, Brianna, Edelweiss, Frontenac, deChaunac)?

c. Is there a difference in the degree of bud delay related to the number of applications?

Each of the five cultivars (Marechal Foch, Brianna, Frontenac, deChaunac, and Edelweiss) will be divided into three groups, by row, and will consist of at least 30 vines in each group. The Control Group will not receive an Amigo Oil application. Treatment #1 will receive a single application, and Treatment #2 two applications.

Up to five thousand one hundred dollars ($5,100) will pay for the costs associated with this project, which includes supplies, equipment leasing, labor, research consultant, data analyst, and site coordinator/manager.

2. Duration of Agreement: This Agreement shall be in force and effective from November 12, 2013 to June 30, 2014.

3. The Department agrees to provide the funds as set out in Paragraph 1 from the Winery and Grape Producers’ Promotional Fund.
4. The Vineyard shall provide a written final report to the Department when the project ends. The report, which shall describe the results of the project and use of funds, will be made public by the Nebraska Grape and Winery Board.

5. Payment in the amount of up to five thousand one hundred dollars ($5,100) from the Winery and Grape Producers’ Promotional Fund to the Vineyard will be payable, in full, upon both parties signing this Agreement, and the Vineyard incurring an obligation for this project. The Vineyard shall present an invoice to the Department from which payments shall be made.

6. Funding for this project is subject to legislative appropriations and funding being available. Any unused funds shall be refunded to the Department and credited back to the Winery and Grape Producers’ Promotional Fund.

7. After the Agreement begins, it is understood that, if additional costs should be incurred, with the mutual written consent of all parties to this Agreement, and provided resources are available, this Agreement may be amended.

8. The Vineyard shall utilize funds provided by the Department to conduct the duties called for in this Agreement. Department funds, collected from a checkoff fee paid by the industry, are not to be used to pay administrative or indirect costs.

9. The parties mutually agree as follows:

a. The Vineyard shall:

   (1) Not discriminate against recipients of services on the basis of race, color, religion, national origin, sex, disability, or age; and

   (2) Not discriminate against any employee or applicant for employment on the basis of race, color, religion, national origin, sex, or qualified disability.

It is further understood and agreed that if the Vineyard is in violation of this clause, it shall be barred forthwith from receiving further funds, unless a satisfactory showing is made indicating discriminatory practices have terminated and a recurrence of such act or action is unlikely.
b. This Agreement incorporates the complete understanding of the parties. Any modification of the Agreement shall be in writing and executed by each party of the Agreement to be valid.

c. The Vineyard agrees to have in force, during the Agreement period, and available for inspection, a policy regarding a drug-free workplace. The policy shall contain:

1. A statement notifying employees that the unlawful manufacture, distribution, possession, or use of a controlled substance is prohibited in the Vineyard workplace;

2. The specific actions that will be taken against employees for violating the policy; and

3. A requirement that each employee shall receive a copy of the policy.

d. The Vineyard shall indemnify and hold harmless the Department from any and all claims and liabilities, including costs and legal fees that may arise out of or on account of any failure on the part of the Vineyard to perform such duties for the Department as herein specified. This obligation shall survive the expiration or termination of this Agreement.

e. The books of account, files, and other records of the Vineyard, which are applicable to this Agreement, shall be available for inspection, review, and audit by the Department and its representatives to determine the proper application and use of all funds paid to, and for the account or benefit of, the Vineyard.

f. The Vineyard agrees to maintain all books, documents, papers, or other records involving transactions related to this Agreement for a period of five (5) years. If any litigation or audit is begun or a claim is instituted involving the Agreement, the Vineyard shall retain the records beyond the five (5) year period until litigation, audit findings, or any claims have been fully resolved, and the Department has agreed that such records no longer need to be retained.

g. The Vineyard specifically agrees that funds given to the Vineyard shall be used only for the projects and purposes enumerated herein and further acknowledges that expenditures shall not be used for political activity.

h. Any funds paid to the Vineyard under this Agreement, and not fully utilized and earned pursuant to this Agreement during the Agreement period, shall be returned to the Department and
credited to the Winery and Grape Producers Promotional Fund, unless otherwise agreed. Furthermore, if the Vineyard fails to perform as outlined herein, the Vineyard shall be required to repay any unearned funds received under this Agreement.

i. This Agreement is not assignable without the express written approval of the Department.

j. This Agreement may be terminated by either of the parties hereto at any time by giving thirty (30) days advance written notice to the other party.

k. The relationship of the Department and the Vineyard under this Agreement shall be that of principal and independent contractor. It is understood by both the Department and the Vineyard that the Vineyard is not an employee of the Department. It is understood that the Department assumes no responsibility beyond those specifically stated in this Agreement.

l. All provisions of this Agreement are subject to the Americans with Disabilities Act.

m. The Vineyard guarantees payment of compensation to injured workers according to the Nebraska Workers Compensation Act.

AGREEMENT
between
MAC’S CREEK VINEYARD AND WINERY
and
NEBRASKA DEPARTMENT OF AGRICULTURE

#18-13-250

This Agreement, entered into by and between Mac’s Creek Vineyard and Winery, hereinafter called the “Vineyard,” and the Nebraska Department of Agriculture, hereinafter called the “Department,” provides funding from the Nebraska Grape and Winery Board to the Vineyard for a research activity that is designed to delay bud break on Nebraska fruit trees at Cardinal Orchards and Reno Ridge Vineyards located near Eddyville and Cozad, Nebraska, respectively.

WHEREAS, it has been proven that high-quality wine grapes and wines can be produced in Nebraska;

WHEREAS, numerous awards have been won by Nebraska wineries at many of the most prestigious wine competitions, proving Nebraska wineries can produce wines meeting local favor and receiving national acclaim;

WHEREAS, the Nebraska Grape and Winery Board, under Neb. Rev. Stat. §§53-301 to 53-305, has conducted a public board meeting and directed the Department to provide funds to the Vineyard for a study of orchard cold hardiness;

WHEREAS, the research activities conducted by the Vineyard will aid in the advancement of the growing, selling, marketing, and promotion of fruit produced in Nebraska for use in the wine industry; and

WHEREAS, both parties hereto desire to enter into this Agreement in order to further enhance Nebraska’s grape and wine industry.

NOW, THEREFORE, in consideration of the mutual covenants herein contained, it is agreed by and between the parties hereto that:

1. The Nebraska Grape and Winery Board approved up to four thousand eight hundred dollars ($4,800) from the Winery and Grape Producers Promotional Fund to assist the Vineyard in paying for a cold hardiness
study conducted on Nebraska fruit trees at Cardinal Orchards and Reno Ridge Vineyards located in Eddyville and Cozad, Nebraska, respectively.

Similar to last year, this project will investigate the effectiveness as to whether the late winter spraying of Amigo Oil to dormant fruit trees can delay de-acclimation and/or early bud break resulting from warm temperatures so considerable damage from subsequent killing frosts can be avoided. The results from this study could make it possible for orchards to significantly increase profitability.

This is a continuation from last year. Preliminary results indicated delay with multiple applications compared to the Control Group. Surprisingly early bud break spoiled single late application trial. While these results are valid, the unusual weather conditions of the winter and spring seasons have made it impossible to determine whether these results can be replicated and expected in future years. Therefore, this project will begin the second year of investigating the effects of single versus multiple applications of the Amigo Oil to fruit trees.

Specific research questions that will be addressed during this project will include:

a. Is there a difference in delayed bud break among groups when comparing the Control Group to Treatment Group #1 across three cultivars?

b. Is there a difference in delayed bud break among groups when comparing the Control Group to Treatment #1 within each cultivar?

Three groups of trees (crabapple, pear, and peach) will be identified at each orchard site. Each group will be selected by rows, in a block-style method. The sample trees will be pruned prior to the first application of Amigo Oil. The Control Group will not receive an application. The initial treatment will be applied on or about March 1, 2014, and reoccur approximately once every two weeks until bud break (approximately May 1, 2014).

Up to four thousand eight hundred dollars ($4,800) will pay for the costs associated with this project, which includes:

a. Amigo Oil and supplies;

b. Plant pathology consultant;

c. Equipment Rental;
d. Research consultant to create the research design, identify and mark sample groups on all sites, train research assistant to collect data, monitor project throughout summer, interpret data, and create a final report;

e. Research assistant to collect and enter data on a weekly basis for statistical analysis:

f. Research analyst for data analysis, consultation, interpretation, and/or preparation of a report; and

g. Site manager.

2. Duration of Agreement: This Agreement shall be in force and effective from, November 12, 2013, to June 30, 2014.

3. The Department agrees to provide the funds, as set out in Paragraph 1, from the Winery and Grape Producers Promotional Fund.

4. The Vineyard shall provide a written final report to the Department by June 30, 2014. The report, which shall describe the results of the project and use of funds, will be made public by the Nebraska Grape and Winery Board.

5. Payment in the amount of up to four thousand eight hundred dollars ($4,800) from the Winery and Grape Producers’ Promotional Fund to the Vineyard will be payable, in full, upon both parties signing this Agreement, and the Vineyard incurring an obligation for this project. The Vineyard shall present invoices to the Department from which payments shall be made.

6. Funding for this project is subject to legislative appropriations and funding being available. Any unused funds shall be refunded to the Department and credited back to the Winery and Grape Producers Promotional Fund.

7. After the Agreement begins, it is understood that, if additional costs should be incurred, with the mutual written consent of all parties to this Agreement, and provided resources are available, this Agreement may be amended.
